## **Ingathering Tracts Collection 298**

### **Scope and Content**

From early in the 20<sup>th</sup> century Seventh-day Adventists in North America and many other countries would go door to door soliciting funds to promote the mission and humanitarian work of the Church. Each year a tract or small magazine was produced to give to potential donors to describe the Church and its work throughout the local country and the world. It consisted of some general statistics, a few stories, and an appeal for financial support. The Ingathering program, at least in North America trailed off in the late 20<sup>th</sup> century as people's openness to such appeals changed and church members stopped doing this type of activity.

This collection consists of a series of these ingathering tracts from 1908 to the early years of the 21<sup>st</sup> century.

### **Arrangement**

The materials are archived in five boxes with 137 folders. Ingathering tracks produced by North American division are organized chronologically from 1908 until 2006. Non-North America-sourced ingathering tracts are divided in English and non - English languages. While ingathering tracts in English language follow an arrangement by countries, the non- English ingathering tracts follow an organization by languages rather than by countries. However, in both case the order is alphabetical.

### **Provenance**

This collection developed through the years as each year a new tract came out and it was collected. At some point the Center received a large collection of tracts, especially from outside of North America, from an unknown source which greatly augmented the growing local collection.

### **Use**

All users of this collection are required to complete the "Application to Use Unpublished Records," and to observe the regulations specified in the "Patron Agreement" and "Researcher's Code of Conduct." All records in this collection are open and available for research. Citation for this collection:
