Madison College, Tennessee

EDITORIAL

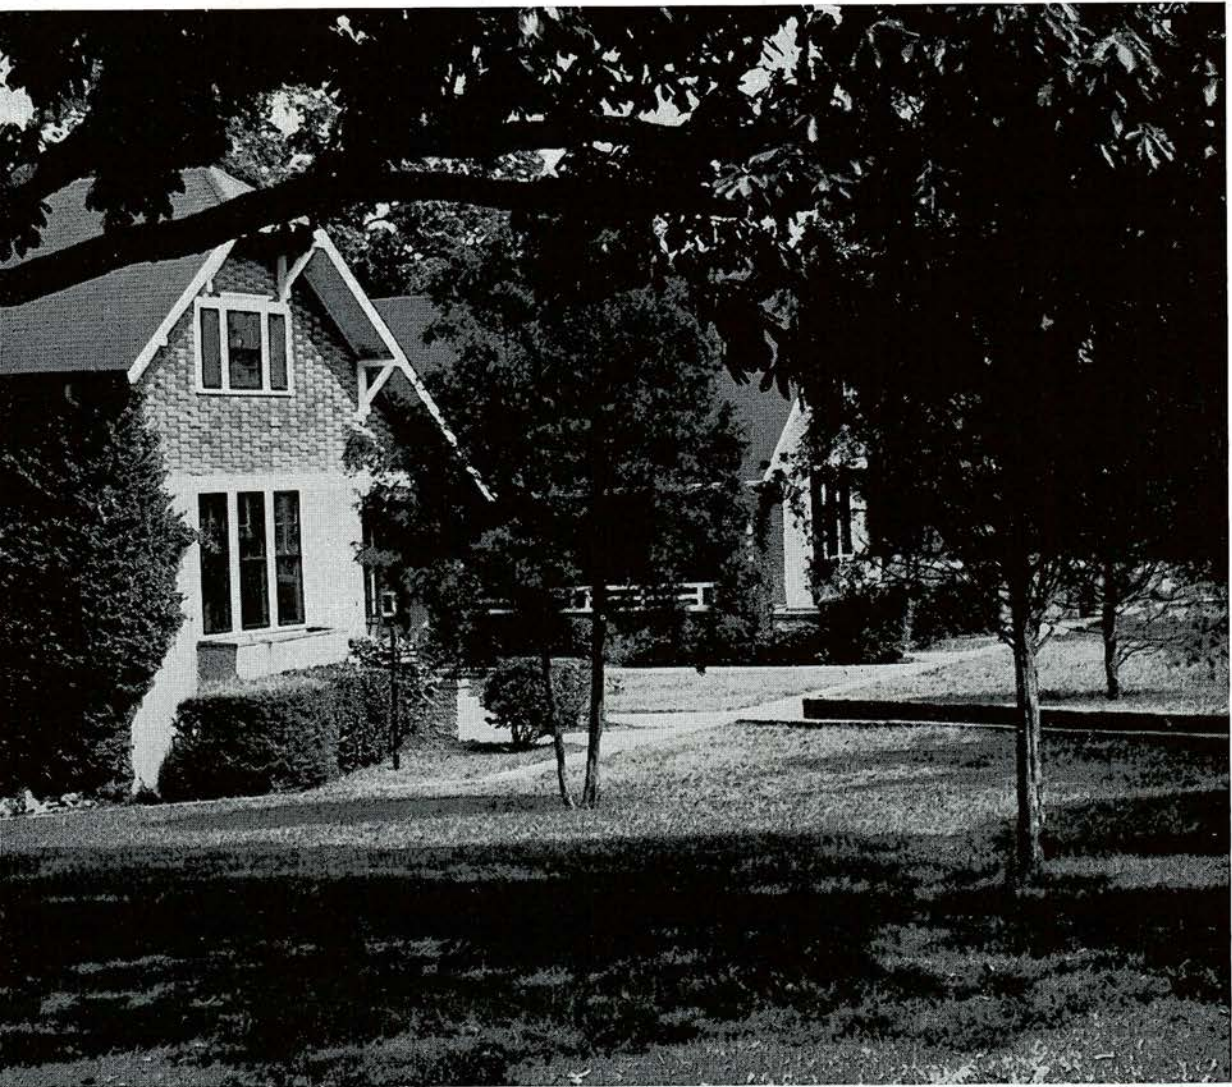

This 1949 Cumberland Echoes comes to you with the sincere desire that it may prove to be a joy and an encouragement to other young people to come this way to share in our Christian fellowship, studies, work, and recreation.

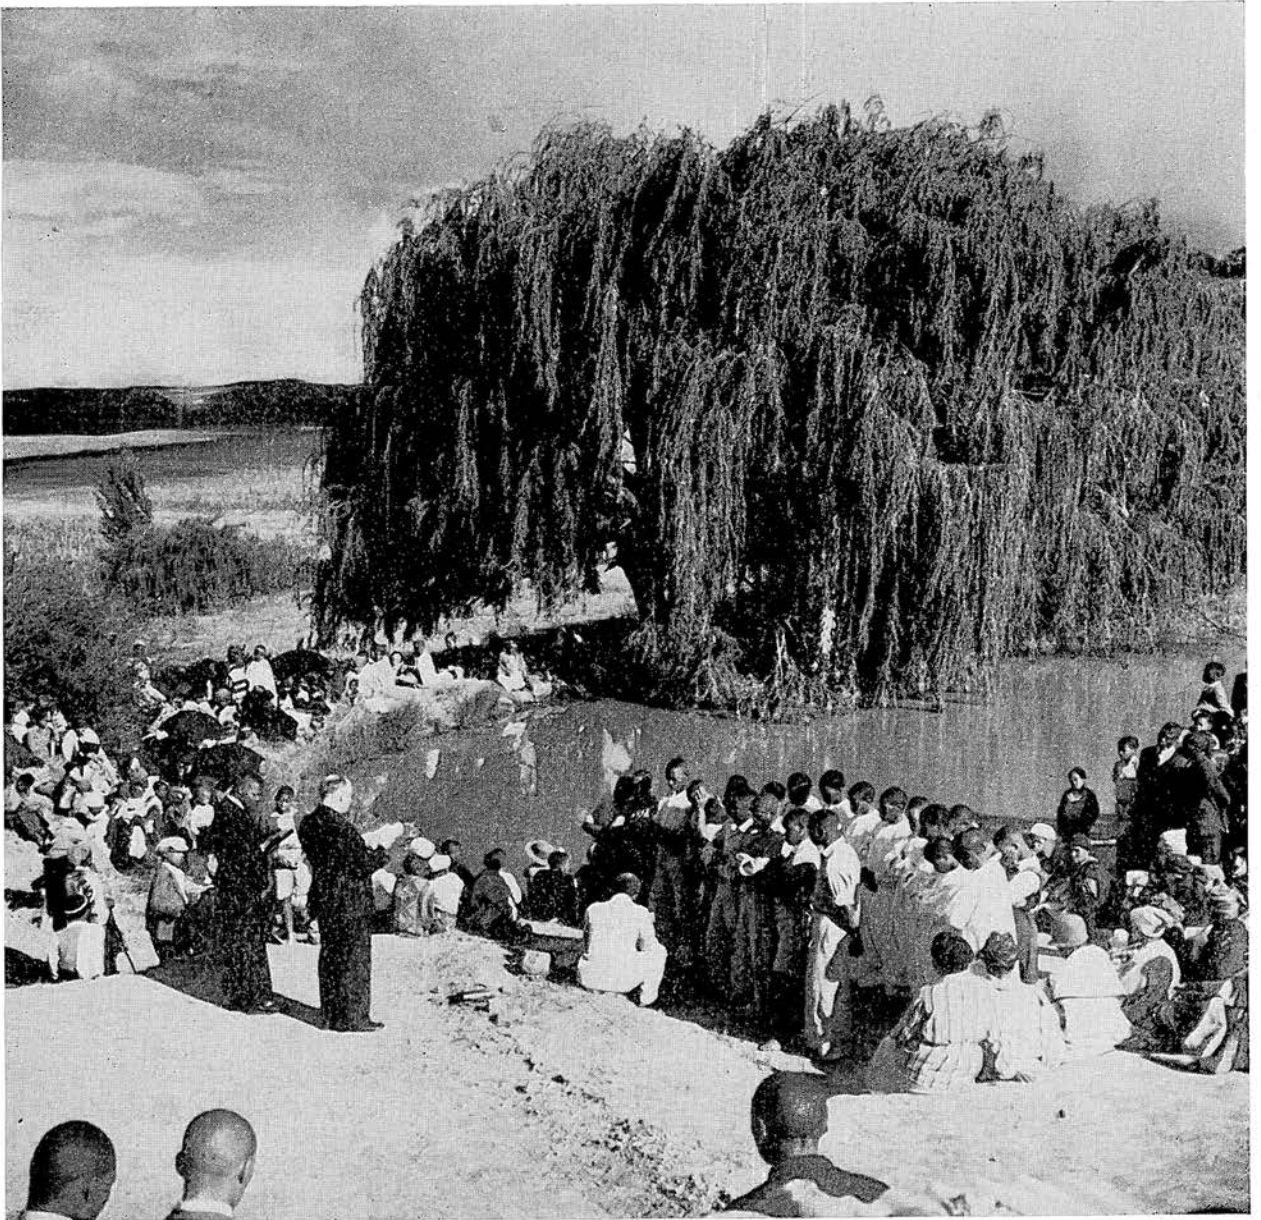

Madison College is the mother institution of many self-supporting units. These units are located throughout the southern states. We have endeavored to show you through the pages of this year-book the extent to which this work has gone.

On the division sheets you will find an outline of each southern state where our work is established and the approximate location of each unit is indicated by a star.

EDITOR

A scene taken from the beautiful Gold Coast of Africa which beckons to our beloved Dean and his wife.

Jesus, We have heard your call
Come and follow!
That is all.
Our home grows dim,
Our hearts go after Him;
We plan to follow
That is all.

Will you not follow too, when you hear His call?

— THE WELCHES —

To you we dedicate this Cumberland Echoes. May it say to you a few of the things we feel in our hearts but cannot express. We want it to tell you how much these fourteen years of service have been appreciated by Madison students. We want it to say "Thank you" for your smiles, your sympathy, and your counsel. May it be a small shadow of the monument of love erected for you in our hearts.

The Advent Message to all the World in this Generation

The true spirit of Christianity is in service, for a static religion is no religion at all.

For the past year we have studied, prayed, worshiped, worked, and played—all contributing to a well balanced life. Yet in this there lacks in the Christian's life but one feature which should take preeminence—Service.

As we take time this year to look at the world, we find it cold and indifferent. Sorrow, sickness, strife, and, most of all, spiritual sickness reign and take their toll. With such a picture of our world before us, we determine so to prepare ourselves that we can have a large part in fulfilling our aim—"The advent message to all the world in this generation."

GOLDEN HOURS OF WORSHIP

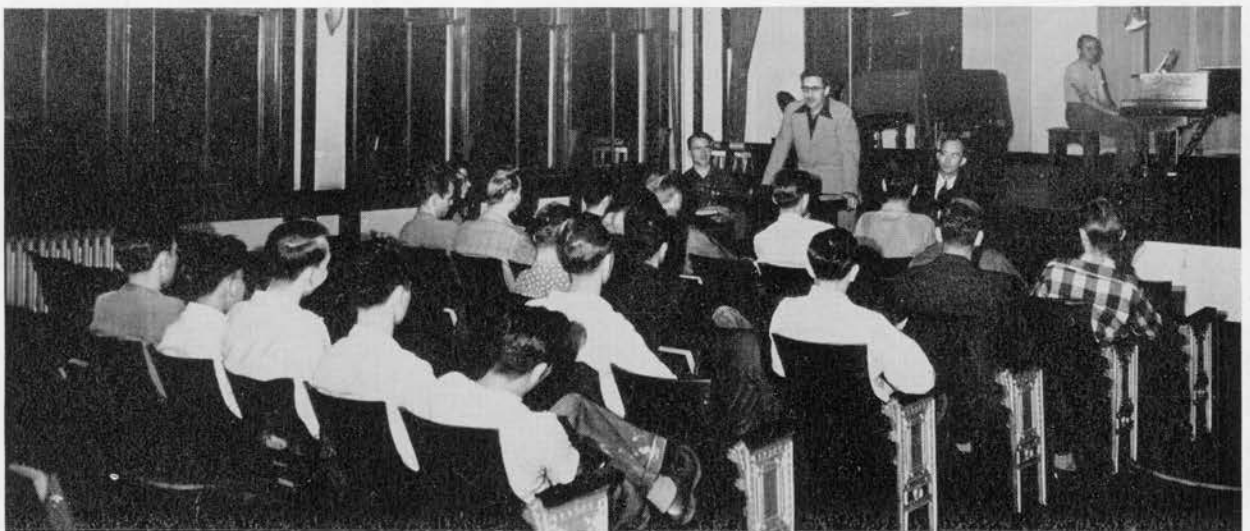

Long will we remember the inspirational Missionary Volunteer programs and their call to service. Here is pictured the Medical Evangelistic group working in conjunction with Missionary Volunteer Society in training young men and women for service in both the Medical and Evangelistic field.

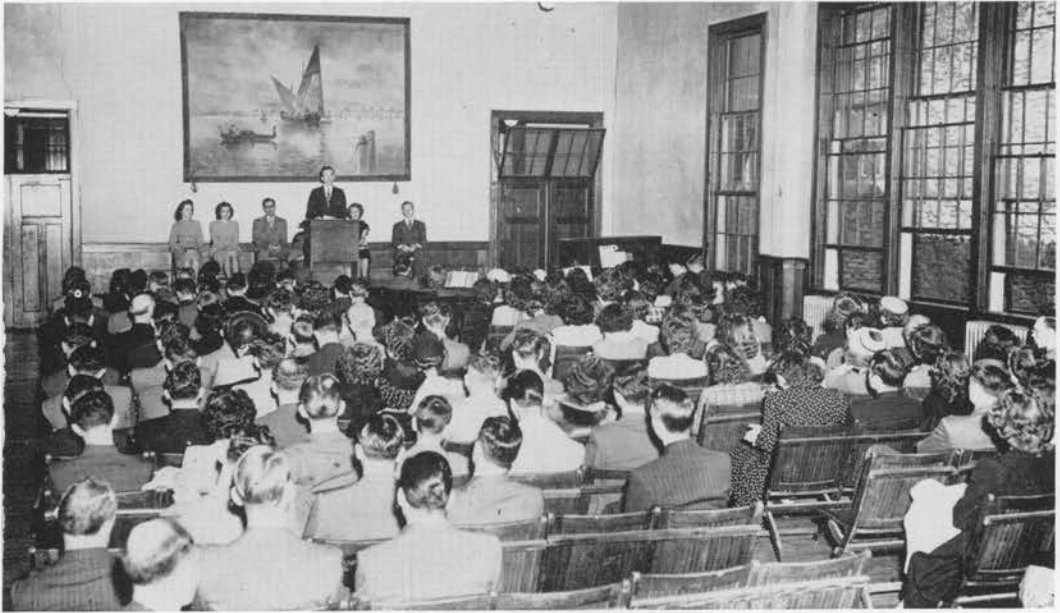

GIRL'S WORSHIP

In the home, the family altar draws us closer to God and to each other; so it is in our respective school homes where we come together as a family for worship. "Blest be the tie that binds our hearts in Christian love."

MEN'S WORSHIP

YOUTH'S SABBATH SCHOOL

The Sabbath School is as important a part of our education as are daily classes. We are organized for service and are gaining valuable experience in leadership and accountability. In our hearts the truth of the Bible is implanted and our desire to do our part in the finishing of the gospel work is increased. Our talents here developed can be used in positions of greater responsibility in future years.

SABBATH SCHOOL OFFICERS

M. V. OFFICERS

To guide in all the spiritual activities of the college and to care for the spiritual life of all in the Sanitarium, we are happy to have our pastor, Elder Coon, with his ever flowing abundance of energy, who gives life to all he undertakes to do. His council to all who have sought him has been given with love, sympathy, and wisdom.

G. A. COON, Pastor

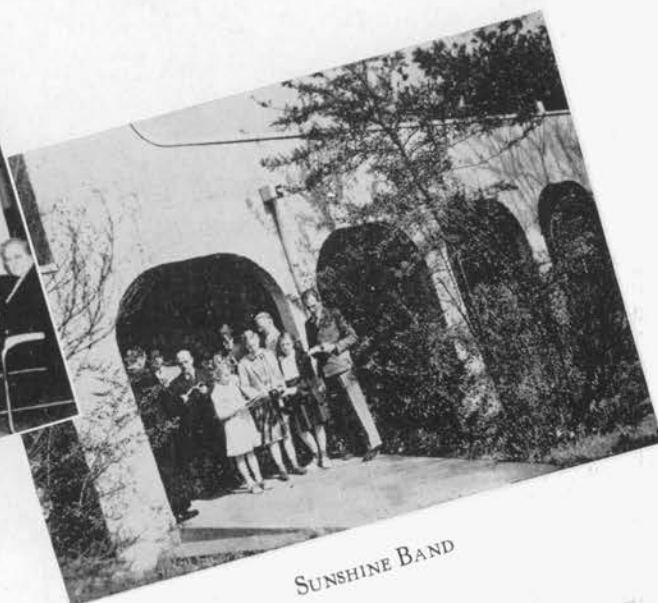

LITERATURE BAND

Another function of the Missionary Volunteer Society is the Literature Band which wraps and mails many "Signs" each week to help others to find God. Then there is the Singing Band which makes the halls of the Sanitarium vibrate with the gospel melodies and also cheers the many souls who wait for recovery. These and others are functions in which we take part to do service for others and help to fulfill our aim—"The advent message to all the world in this generation."

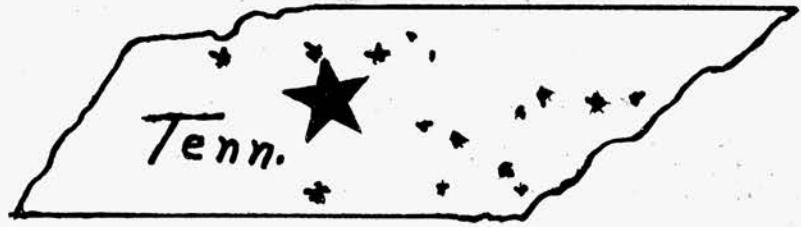

SANITARIUM WORSHIP

SUNSHINE BAND

Administration

“Every possible means should be devised to establish schools of the Madison order in various parts of the South; and those who lend their means and their influence to help this work are aiding the cause of God.”

MRS. E. G. WHITE

Message From The President

Madison College was established for the specific purpose of preparing young people to meet life's problems and responsibilities. For one to meet these successfully he must first know what life is about and the goal toward which to strive. This goal is dependent upon one's philosophy of life. And as Dr. Patrick says, "Consciously or unconsciously every man frames for himself a theory of the relation of the individual to the universe, and on his attitude to that question his whole life and conduct, public and private, depend." All our decisions are made upon the basis of our ideas of value, and upon some ideal standard or goal of life, even our choices and decisions whether they be careers, pleasures, occupations, or what not—all depend upon one's conception of life and its purpose.

Hence the importance of a Christian college to give a Christian conception of life. That is the purpose for which Madison College exists. It is a Christian institution with a Christian faculty basing their teaching upon the Christian conception of life with a Christ centered curriculum. Madison is not only a Christian college to give a proper conception and evaluation of life in addition to the regular cultural subjects, but it is a college that prepares one to meet life's practical duties as well. While one needs a philosophy to give him a proper goal toward which to strive, he also needs an understanding "of some trade or occupation by which, if need be, he may earn a livelihood." To this purpose and aim Madison College is dedicated.

Front Row Left to Right: W. E. Straw, M. Bessie DeGraw, E. A. Sutherland, V. G. Anderson, J. C. Gant, J. A. Tucker, C. O. Franz.

Back Row Left to Right: R. B. King, James E. Zeigler, W. F. Rocke, Ruth E. Hopper, J. W. Blair, W. M. Sandborn, Floyd Bralliar, Howard J. Welch, James D. Schuler, H. B. Thomas.

Board of Directors

The Board of Directors of Madison College, elected by the Constituency of the Institution, is widely representative of various professions and interests among Seventh-day Adventists. Business men, Ministers, Physicians, Educators, Nurses, Farmers, Conference and Institutional Administrators are all represented on its Board. Men and women of courage and vision give of the wealth of their ripened experience to the forming of the Christian policies that pattern the operations of the college and all its related activities.

The Constituency of the College, which elects the Board of Directors, includes most of the regular workers of the college, representatives of self-supporting missionary units, and various officials of conference organizations and institutions.

Classes

“With our larger schools should be connected small sanitariums, that the students may have opportunity to gain a knowledge of medical missionary work.”

MRS. E. G. WHITE

Seniors

ERVIN B. STEWART
Madison College
*Major, Chemistry
Minor, Mathematics
and Biology*

Born in Iowa, but calls "Home" wherever he is with his wife and boy—"Rickie".

Academy and Junior College graduate of Collegedale.

His parents were pioneer missionaries in the Philippines and later Ervin was with them in Mexico, Cuba, Central America, and South America.

As a Laboratory technician he served the government for three and a half years in the army.

His interest in music is evidenced by his participation in Quartette work, Choir, and music directing.

His future plans are to work on his M.A. at Peabody College in Nashville, Tennessee.

HAROLD PERVIS
Florida
*Major, Biology
Minor, Chemistry*

Floridian by birth, still Floridian in heart. Academy graduate of Collegedale.

Upon entering the U.S. Navy in 1943 as medical corpsman, Harold with five other S.D.A.'s received a general court martial sentence of two years and a dishonorable discharge due to Sabbath observance. Answered prayers and faithful work of our brethren reduced this sentence to one month in prison and six months probation with an honorable discharge.

Harold's photography blends well with his clinical laboratory and x-ray work, which he intends to continue in Florida.

FRANK GILLIN
Ohio

*Major, Agriculture—
Minor, Social Science*

Born in Cleveland, Ohio.

A friendly smile and a soft voice,—that's Frank.

Graduate of Hylandale Academy, Rockland, Wis.

Seeing the needs at the Academy he planned to return and teach upon finishing college. However, Uncle Sam invited him to spend two years visiting China, Japan and Formosa while in the Navy.

By attending summer school, Frank completed college in three years. Now, soon his dream of teaching at Dylendale will become a reality.

LOTTIE DICKERSON
Arkansas

*Major, Nursing—
Minor, Education*

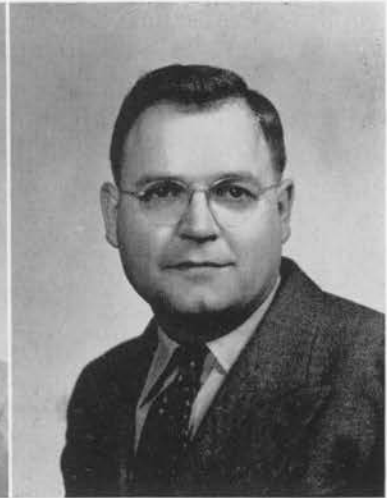

Born among the Indians of Oklahoma.

Later attended a home school on a farm in Arkansas.

To continue her education, she spent four and one-half years at the Review and Herald office where she worked to defray expenses.

After completing the Normal Course at Collegedale, Miss Dickerson taught Church School several years in Arkansas.

Nursing had long been her heart's desire, so she entered nurses training and plans to help prepare others for service in the nursing field.

GEORGE THORNTON
Illinois

Major—Biology Minor

Born at Carbondale, Illinois, but calls Oregon his home.

After spending several years on a farm in Texas with his grandmother, he moved to Colorado where he started to school.

He began his college education at Union College but was interrupted by two and one-half years of service in the army. He spent these two and one-half years in England and on the European Continent.

With his white jacket and brief case, George is a familiar figure to us here on the campus.

JESHER VAN CAMPEN
Georgia

*Major—Nursing
Minor—Biology*

Mrs. Van Campen was born and reared in Georgia. She was married at an early age but always had a desire to complete her education. When the girls were married she returned to her studies.

She has completed and registered in X-ray and nursing and now looks forward to a course in anesthesia.

Eventually she plans to work among the people of the hills of eastern Tennessee where she and her husband are completing a home.

COLLEGE CAFETERIA

Madison Trains Rural Home Makers

HOME CONOMICS TEACHERS AND DIETITIANS

Bright, attractive, happy rural homes on prosperous, efficient and well-kept farms are powerful influences in keeping the entire world happy and contented, be it home or foreign fields. Modern rural homemaking requires the application of much scientific and practical knowledge. It trains for doing the common duties uncommonly well.

The practical arts, shelter, clothing, food, homemaking, the social aspects, and related courses which are fundamental to real culture and teamwork in later life make up the four-year college course leading to a Bachelor of Science degree. It prepares for true home-making and the *teaching* of these arts as well.

This type of education is emphasized by the Great Teacher in the triumphant statement: "My father worketh hitherto and I work." When men are rightly occupied, their pleasure grows out of their work like the color petal out of the flower. *Train* to help others *make happy homes*.

The study of Nutrition develops:

1. Hospital Dietitians
2. Institution Food Administrators
3. Teachers of Nutrition
4. Food Clinic Administrators
5. Nutritionists in Public Health Agencies
6. Editors of Food Columns and Magazines.

LAY EVANGELISM

“So vast is the field, so comprehensive the design, that every sanctified heart will be pressed into service as an instrument of divine power.” Vol. 9, p 47.

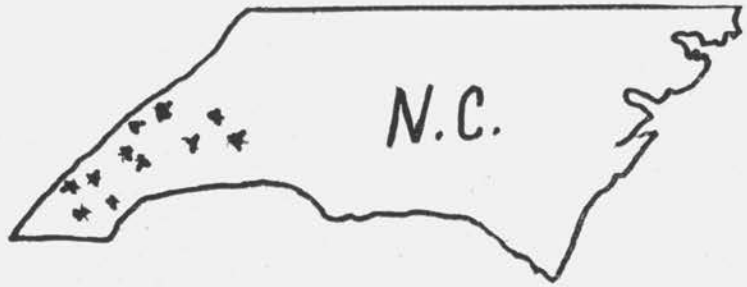

The 1949 Lay Evangelism class with Pastor Glenn Coon as its dynamic instructor, launched out with a program which has proven successful in enlisting the fine cooperation of the entire class of seventy odd students.

The laboratory work consisted of conducting Vesper services for the patients in the Sanitarium. A rolling library to supply them with gospel books likewise was made by members of the class. Then groups of singers and visitors went through the different wards making friends with patients and bringing cheer to their hearts. Bands to care for literature racks and reading tables also were organized.

Throughout the class the motive of love was stressed as is well summed up in these words, “As the dew and the still showers fall gently on the withering plant, so our words are to fall gently and lovingly on the souls we are seeking to win.”

The advanced class in Evangelism will produce evidence of its lasting worth by contributing in a very substantial way to the opening up of new units. It will assemble and leave on record the step by step procedures needed for the advance of the work of God in the earth.

“There is no limit to the usefulness of the one who, putting self aside, makes room for the working of the Holy Spirit upon his heart, and lives a life wholly consecrated to God.”

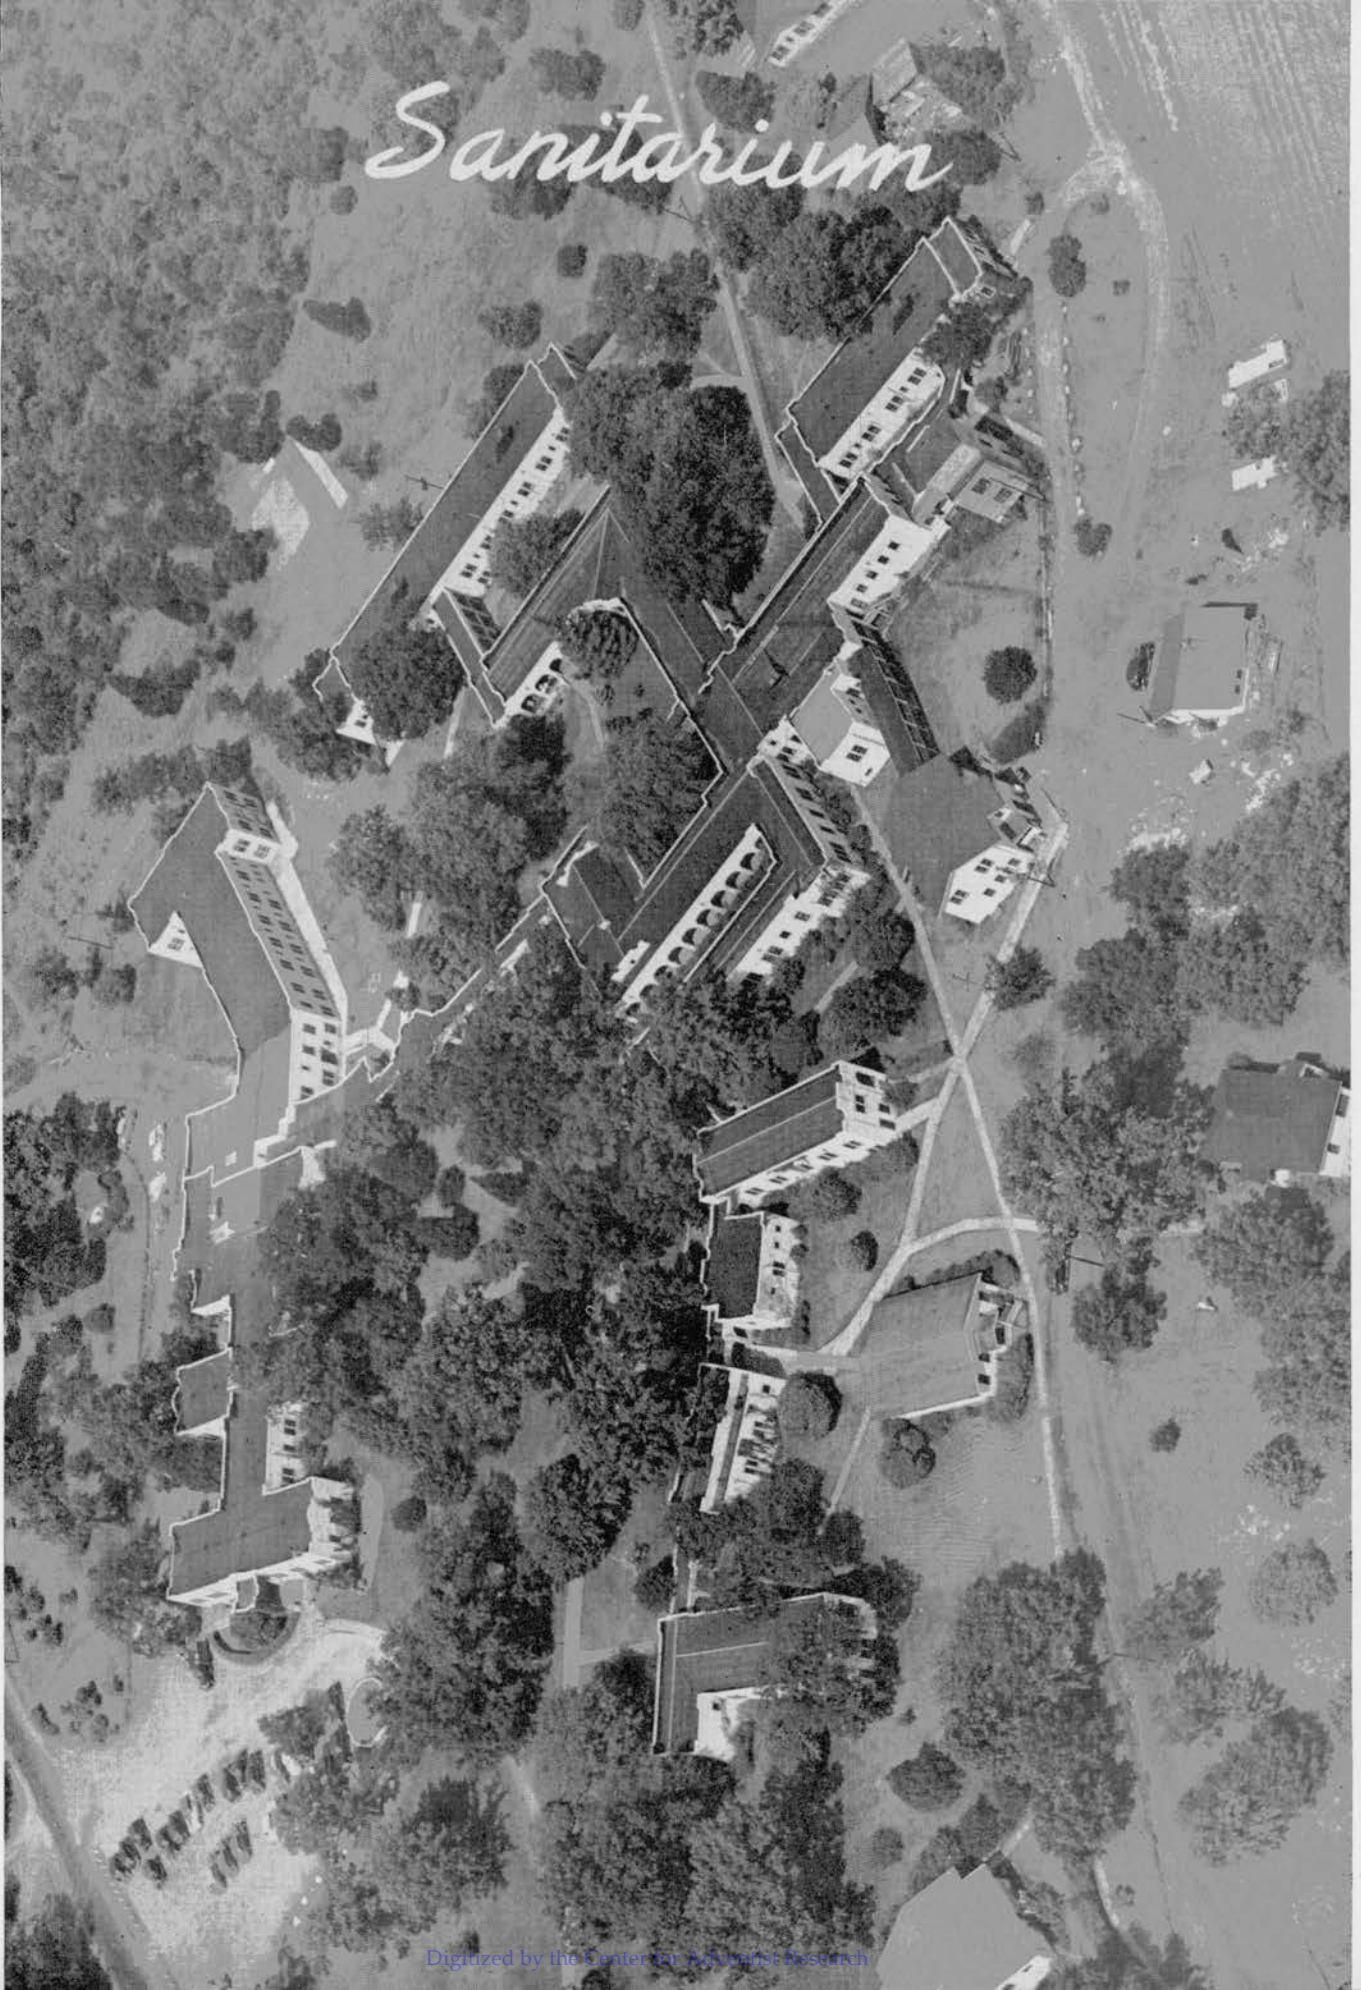

Medical

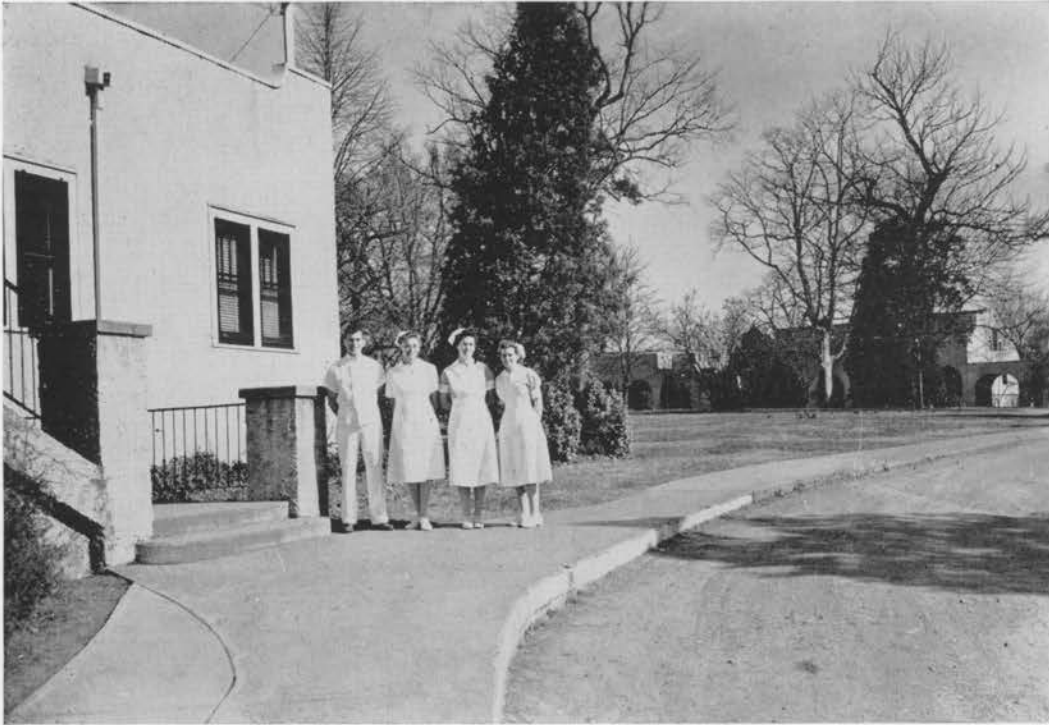

To the founders of one of the larger units in this state Sister White wrote—

“I believe the Lord has been leading you”, and “Whatever may arise do not be discouraged, but press your way forward.”

SKETCHES PAGE 23

Sanitarium

Front view of our hospital—senior class officers

Our guests numbered 3,913 during 1948

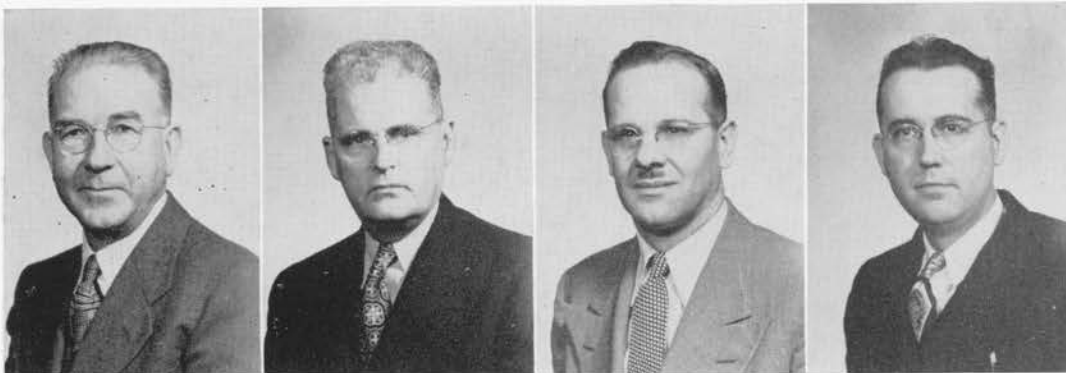

A freshly donned uniform of white—a brisk and energetic step, a willingness of heart to be of service to others, a warm smile, on the lips a prayer—this is a Christian nurse.

Perhaps the call will come to you to spend a few years training for this phase of God's work.

We, the officers of the class of 1949, invite you to peruse the following pages and hope many of you will be inspired to come to our training school—share its joys, problems, and satisfactions—and someday be a graduate, too.

Nurses

Lord, touch my hands with healing power,
That day by day and hour by hour
Thy healing balm through them may flow
To weary sufferers in their woe.

Lord, touch my feet, though long the day,
They hasten always to obey
The slightest call from those in pain;
Grant ease may come to them again.

Lord, touch my eyes with tenderness;
Thyself through them God's love express;
My lips Thy mouthpiece, sweet and clear,
Bring words of life to help and cheer.

O Great Physician, God's dear Son,
At daybreak, noontide, evening sun,
Grant me Thy power, Thy hand on mine,
Bring healing touch of strength divine.

Oh, "Everlasting arms around,
About, beneath" us all be found;
Enfold the weary, sheltered, blest;
Give all Thy sweet "refreshing rest."

Our Goal---Graduation

May each of us as graduates accept the challenge of this poem

Commencement Hour

O God of might, before Thy Throne of power
We must accept the challenge of this hour
To uplift men before the world of men,
And let them see the living Christ again.

O God of light, within Thy radiant beams
We see visions and we dream new dreams.
While Christ is sitting for His portrait in our sight,
Correct our focus and adjust the light.

O God of right, before Thy throne of grace
We clearly see our mission to our race.
As living portraits of the Christ of power,
We now accept the challenge of the hour.

ADLAI ALBERT ESTEB

A Tribute

We wish to express our deep appreciation to our parents, teachers, class sponsors, friends, and hospital administrators who have been an inspiration to us and have helped us to reach our goals. We shall never forget their kindness to us.

Academic

“Schools are to be established away from the cities where the youth can learn to cultivate the soil, and thus help to make themselves and the school self-supporting Let means be gathered for the establishment of such schools.”

Forty-Niners

We're the seniors of forty nine
Lord, take our lives and make them shine
Like gold discovered long ago
In mountains north of Mexico.

Madison College is our school
Where we are taught the golden rule,
And where we learn from day to day
To walk the steep and narrow way.

Then when our paths on earth must part
We'll take the Mem'ries in our hearts
Of all the friends and comrades true
Of all the joys and sorrows too.

Till Jesus comes in glory bright
We'll do our part to win the fight
For we're the seniors of forty nine, So,
Lord, guide us onward; we are Thine.

Elementary School Grades 1 to 10

The year has brought many pleasant activities to the children of the Church School. On one occasion they participated in a bicycle parade. A short patriotic program was given before the parade; later thirty children on tricycles, scooters, bicycles and wagons, passed by in review, all gaily decorated with crepe paper. Little dogs followed along with their ribbon bows.

The M. V. programs have given the children much joy. Bird honors call for bird boxes and feeding stations to be made at school and the birds readily took them over. Laundry honors brought the ironing board to school; and boys and girls took their turns ironing while classes were not disturbed. Weather and flower arranging have been just as interesting. The cook out with cans provided a great deal of fun. The small can burners and the No. 10 can stoves proved very satisfactory for cooking a good supper.

Madison College Preschool

Is the laboratory carrying out the pattern given the church for the early years of the child? The children are made acquainted with the heavenly Father through His book of nature, through stories, through observation, through planting of seeds, and through caring for pets, while they are learning to work and to play joyously together.

As they help to prepare for dinner the vegetables they raise in their garden, they learn how life begins for the plant children, and of the Father's care for even the smallest things.

On the playground and out under the trees, where strong physical development is wisely encouraged, the children learn many valuable character lessons, taking turns and sharing in games, as well as doing useful work.

Among Christ's last words, as He left this earth, were: "Feed my lambs." Yes, our little children must be fed the knowledge of God, whom to know aright is life eternal. What a challenge for parents and teachers!

Mothers Trained and Training to Feed the Lambs

Through special classes and practice in nature teaching and preschool methods, parents and teachers gain a knowledge of child care and training, nursing, dietetics, and broader country living. The instruction to the church is: "The lambs must be fed, and God is looking to see who will do it."

Mothers' Club

The aim of the Mother's Club as it meets for study each week is to learn from God's spoken word, the book of nature, the lessons that will teach our children of God's interest in each one individually.

We want to teach our children that God has a plan for each life and that He has made provisions for each one to fulfill that plan.

Observance of the perfect detail in every flower, leaf, insect, and even the smallest objects of creation fills one with wonder which is akin to worship at the marvelous personal interest the Creator has in each thing which He spoke into being. We can teach our Children that Christ said, "Ye are of more value than these—" such a knowledge will sustain them when temptations might shake their faith.

The mothers spend many happy hours together learning these object lessons.

Industrial

“The various units in the Southland are doing a noble work for God, and we feel sure that when the harvest of the earth is reaped, many precious souls will be garnered in as the result of the faithful efforts of these self-supporting missionary workers.”

Agriculture

Besides the small fruits such as grapes and strawberries there are well over 1200 fruit trees of different ages. These are cared for by students under the guidance of the Department head. The yield from the tree fruits last year was 5,506 bushels.

“Working the soil is one of the best kinds of improvement, calling the muscles into action and resting the mind. Studies in Agricultural lines should be the A, B, and C of education given in our schools.”

“The usefulness learned on the farm is the very education that is most essential for those who go out as missionaries to many foreign fields.”

A new well equipped bottling plant pasteurizes and bottles the milk. Preparatory to delivery to Cafeteria, Sanitarium Kitchen, and campus.

A herd of fifty-five Registered Jerseys average about one hundred and twenty-five gallons of milk a day. The cows are milked by the students with mechanical milkers.

Food Factory

The founders of Madison College believed there was much virtue in a simple life on a farm as the environment for an educational institution. In the school dining room and also in the sanitarium and hospital bill-of-fare, plain foods were served with due emphasis given to the natural and unrefined foods. Benefited greatly by the simple treatments given and the wholesome meals served to patients, they returned to their homes requesting the foods served to them in the sanitarium and hospital. Students and workers responded likewise.

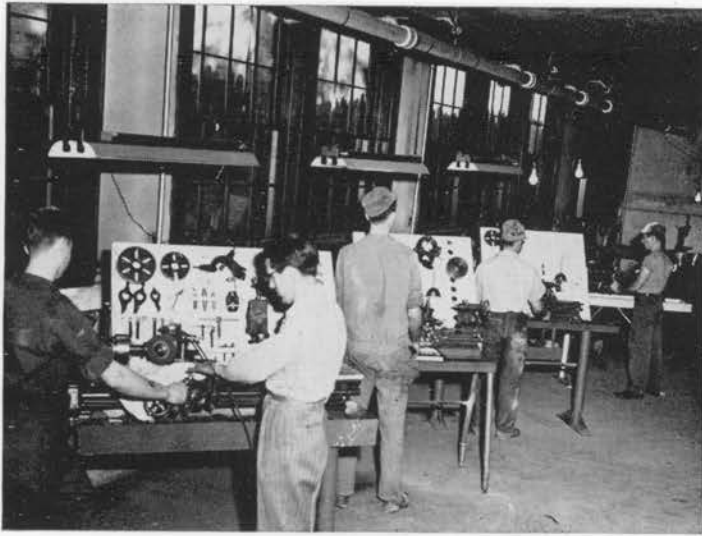

Visitors became interested equally and the question was frequently asked, "where can we get these good foods?" Measuring up to the model of service of the founders, a food manufacturing department was established forty years ago and now trades in the forty-eight states and some foreign countries under the name of Madison Foods which represents the devotion of the founders of Madison College aptly symbolized in its motto, "Devoted To The Protection Of Your Health."

Industrial Education

The Department of Industrial Education of Madison College is faithfully and successfully performing its major mission, that of being a part of one of the three foundation stones of true education. "True education is the harmonious development of physical, mental, and spiritual powers."

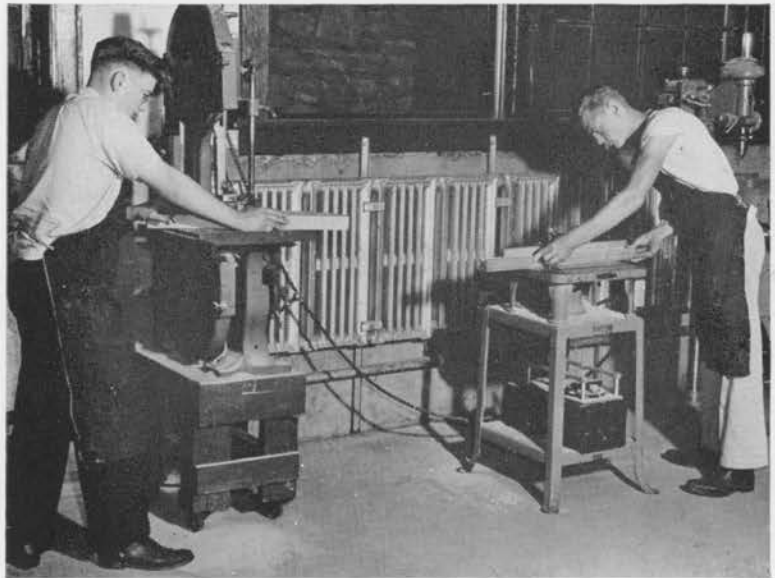

This department is proud to contribute to the physical upbuilding of men, while at the same time developing their mental and spiritual powers. We are teaching men how to be self-supporting Christian missionaries by training their heads, their hearts, and the hands to work in a harmonious way to the glory of God.

Within the last two years this department has taken tremendous strides in the direction of becoming a first class training center for men who desire a practical training to better fit them to meet the problems of life. Thousands of dollars worth of equipment have been added and capable teachers have been secured.

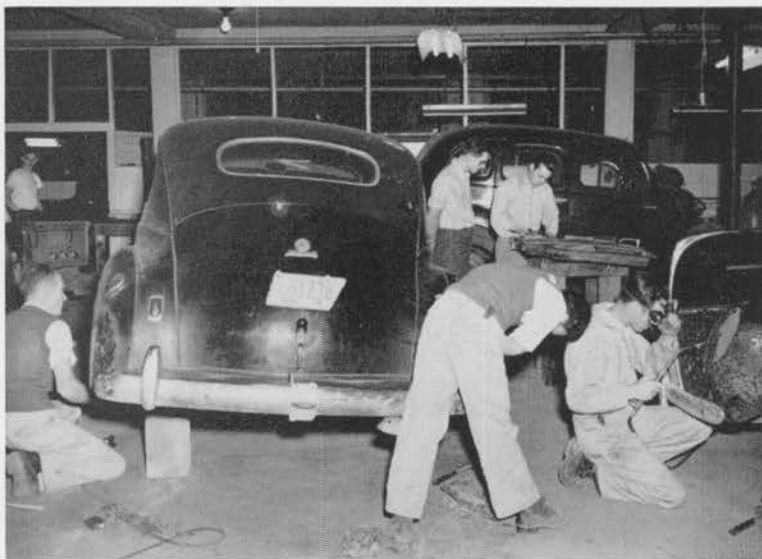

BRICKLAYING CLASS

"The youth should be led to see the true dignity of labor. Show them that God is a constant worker. All things in nature do their allotted work. Action pervades the whole creation, and in order to fulfil our missions we too must be active."

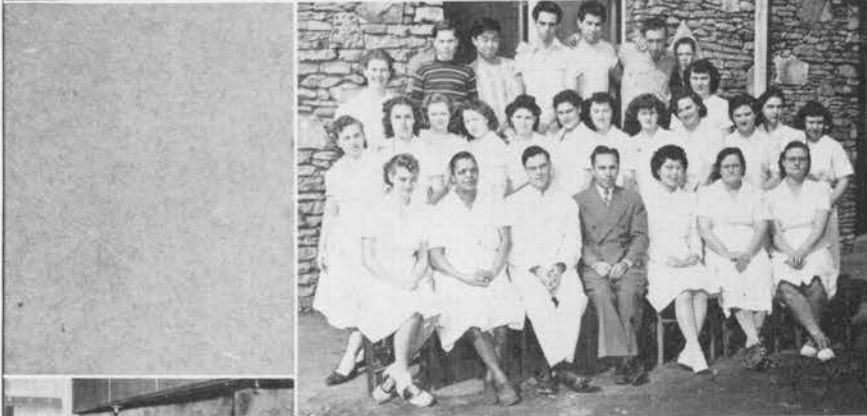

MACHINE WOODWORKING CLASS

BODY AND FENDER CLASS

"The youth need . . . a training that will make them practical, men and women who can cope with emergencies. They should be taught that the discipline of systemic, well-regulated labor is essential . . . as an aid to all-round development."

While every person needs some knowledge of different handicrafts, it is indispensable that he become proficient in at least one. Every youth, on leaving school, should have acquired a knowledge of some trade or occupation by which, if need be, he may earn a livelihood."

Food Service

In the College Cafeteria there are at least 40 students who are working their entire way through college and high school, while some 35 students are defraying their expenses by working at the Sanitarium Kitchen.

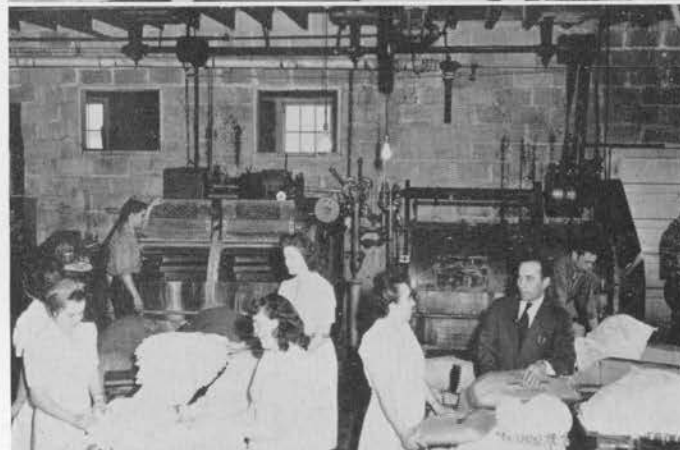

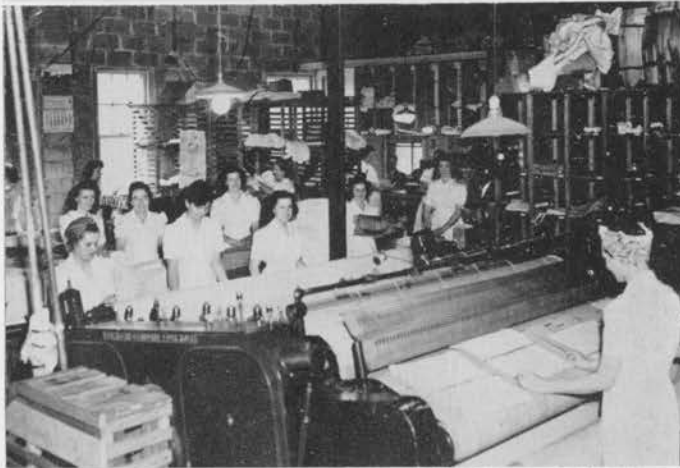

It has been our privilege to serve 155,490 meals from the Sanitarium Kitchen for our guests. At the College Cafeteria 200,750 meals were served our students and workers. We used 36,650 pounds of potatoes and 20,075 loaves of bread last year. Practically all the cooking and baking is carried on with student help. We are certain that this training will be of great help to these students in later years. Surely the Food Service Department is blessed and can truly be thankful when a large group works together for the interest of others.

Laundry

More than 30 students meet their expenses by working here. There are those that could not continue their education were it not for our Laundry.

In the past year we washed and mangled 312,000 bath towels for DuPont, 2,704 uniforms were finished and 182,000 pounds of laundry was also washed and mangled for them.

The workers finished 24,000 shirts 7,020 uniforms and all in all about 389 tons of laundry went through our hands.

YOU AND A WONDERFUL PROFESSION

If you would live fully, richly, capably—choose a career in nursing.

Write—Director, School of Nursing,
Madison Sanitarium and Hospital
Madison College, Tennessee

“The hospital with the rural atmosphere.”

The institution at Madison not only ministers to the sick, it teaches a way of life that fosters health.

By close contact with the beauties of nature, by remedial treatments—increased faith, hope and courage are the usual results.

This well-equipped medical, surgical, and obstetrical institution specializes in hydrotherapy, electrotherapy, x-ray and clinical laboratory.

Attractive features. Fresh fruits, vegetables, and dairy products from the institution's large farm. Close association with the buoyant students of the school of nursing who radiate health and good cheer; experienced clinical and laboratory and x-ray technicians; dietitians; nurses; all contribute to the Christian atmosphere of the hospital.

Fully accredited by the national and state organizations, and approved for mixed residencies.

Satisfying

MEATLESS ENTREES

ZOYBURGER STEAK with onions

Place half-inch slices of Zoyburger on well-greased pan, with desired amount of onions. Prepare to a medium brown on both sides. Salt to taste. Serve with onions as the meat portion of a dinner. Zoyburger Steak may be served without onions or by substituting mushroom sauce, Creole sauce, tomato sauce, gravy, etc. If a sauce is used, prepare it separately and place on top of Zoyburger Steak when served.

BROILED VIGOROST with mushroom sauce

Cut Vigorost through center lengthwise, then crosswise, into half-inch slices. Arrange in greased baking pan. Put melted butter on top of each piece and broil until brown. When finished, arrange on serving platter, overlapping the slices. Garnish the edges with sliced tomatoes and crisp lettuce, and pour over the Broiled Vigorost a hot mushroom sauce. Serve with baked potatoes and garden peas. Zoyburger, Not-Meat, or Stake-lets may be used in this recipe in the place of Vigorost.

MADISON COLLEGE chemists have developed most unusual foods to take the place of meat in the diet. Meat-like flavors that are delicious and satisfying have been created for your enjoyment and good health. In addition they provide complete protein for which meat is used as a food. For meatless meals with tasty meat-like flavors—Try The Recipes On This Page and you'll agree that you can have "Satisfying Meatless Entrees". They're economical too.

Try This New Food

STAKE-LETS are the newest development of Madison Foods laboratories. Extensive experiments show that the combination of gluten and soy with a special meatlike sauce, an exclusive Madison formula, is superior in both flavor and texture to gluten itself. Already sliced in the can for your convenience with sauce. Dip in egg batter and crumb to serve as a Stake-let.

BREADED CUTLETS — Dip half-inch slices of Not-Meat into beaten egg and crumb. Place a small chip of butter on each slice and salt. Prepare on top of stove or in oven in well-greased pan until brown. Serve with parsley garnish as the meat portion. Vigorost, Zoyburger, or Stake-lets may be used in the place of Not-Meat. Fourteen-ounce can makes 5 medium cutlets; 30-oz. can makes 8 large cutlets. Large cutlets may be sliced in two.

"Devoted to the protection of your HEALTH"

Madison Foods are available throughout the United States in stores specializing in natural foods.

Disclaimer on Physical Condition

By their very nature many older books and other text materials may not reproduce well for any number of reasons. These may include

- the binding being too tight thus impacting how well the text in the center of the page may be read,
- the text may not be totally straight,
- the printing may not be as sharp and crisp as we are used to today,
- the margins of pages may be less consistent and smaller than typical today.

This book or other text material may be subject to these or other limitations. We are sorry if the digitized result is less than excellent. We are doing the best we can, and trust you will still be able to read the text enough to aid your research. Note that the digitized items are rendered in black and white to reduce the file size. If you would like to see the full color/grayscale images, please contact the Center.
