### 73rd Annual Convention

of Southern Self-Supporting Workers  
Harbert Hills Academy, Savannah, TN.  
Sept. 29 - Oct. 1, 1983

The 73rd Annual Convention of Southern Self-Supporting Workers was held at Harbert Hills Academy near Savannah, TN. during the last two days of September through October 1. After the death of E. A. Sutherland the name was changed to Laymen's Extension League (L.E.L.). Note how many years these annual meetings have been held — seventy-three! Has any other organization such a continuous record? Starting in 1910, the meetings were held at Madison until the college closed in 1964, then in rotation at the several institutions large enough to provide accommodations.

Beginning Thursday evening, Elder Conn Arnold, A.S.I. director for the Kentucky-Tennessee Conference, gave the keynote address.

On Friday morning Randy Dickman spoke on Energy Conservation — a vital subject these days when it costs so much to heat our homes and buildings. (See elsewhere)

Also on Friday morning Roger Goodge spoke on "Agriculture."

On Friday afternoon David Lee spoke on "School Industry Marketing," throwing out several ideas that might be used to bring in funds for schools. Also Dr. Bill Palmer, a dentist at Corinth, Miss., who is one of the few doing something to help people get out of the cities, spoke on "Rural Living."

Robert Santini was the speaker for Friday evening vespers. He spoke on "Miracles of Prison Ministry." Bob had been longing to get a vegetarian cafeteria started in Birmingham where he is administrator of Pine Hill Sanitarium. He became acquainted with a black couple, Richard and Carolyn Bland, and thought they would be the ones to carry out his dream. They tried to find a location, but were unable.

Then Richard Bland got greatly involved in prison ministry, with strong support by Bob Santini, the local churches, and the prison officials. Literature, Cassettes and Bibles were

### 1984 Homecoming Date

Several have been inquiring about the date for the 1984 Homecoming. It is scheduled for June 22-24. Honor Classes are 1934, 1944, and 1959. Do plan to be present; whether you are in an honor class or not.

distributed. In the several prisons and jails of Birmingham 1200 Bible studies were given in a 12-month period, and baptisms resulted.

#### Sabbath Services in Savannah Church

On Sabbath morning everyone left the Harbert Hills Campus and drove to Savannah for Sabbath School and Church. John Freeman, president of Maranatha Flights International, had the missions feature at Sabbath School. Pastor of the church, Elder Ben Davis, had the morning sermon.

After a bountiful potluck dinner at the church the folk returned to the school campus and heard reports from the

### COMING EVENTS

5th Annual Agriculture Seminar  
Stone Cave Institute, Dunlap, TN.  
Feb. 22 - 25, 1984

Madison Academy Homecoming  
April 14, 1984

Madison College Homecoming  
June 22 - 24, 1984

ASI Convention, Sept. 5 - 8, 1984  
Andrews University, Berrien Springs, Mich.

L.E.L. Convention, Oct. 11 - 13, 1984  
Fletcher Academy and Hospital, N.C.

● At the L.E.L. business meeting at Harbert Hills, officers elected for 1984 were Herbert Coolidge, president; Roger Goodge; executive secretary; Mable H. Towery, recording secretary; Norman E. Peek, treasurer. The first vice president is Raymond Harold, administrator of Pine Forest Sanitarium. It was voted to have the meeting next year at Fletcher Hospital and Academy Oct. 11-13, 1984.

institutions Sabbath afternoon. . . . As Roger Goodge, chairman, called on the representatives, he asked them to tell how many acres were owned by each. (If totaled up this would undoubtedly amount to quite a sum.)

Whispering Pines, Gruetli, TN., was represented by Jonathan Wilson, head of education, and Steve Greentree.

Wildwood Medical Missionary Institute, Don Johnson spoke of the worldwide work of Wildwood, and the plan to expand to an R.N. degree.

Laurelbrook School and Sanitarium, Dayton, TN., Eric Schoonard, in charge of the dairy where they milk 75 cows. They have 1000 acres, 45 patients in the sanitarium, and 75 students in the academy. A workbee and trip to Belize, Central America, is planned.

Hylandale Academy, Darrel Brown reporting. Industries are picture frames, tapes, and steel sales (through Linden McNeilus). They have 21 students this year (only ten last year).

Pine Forest Academy and Sanitarium (started 1937). Doug Flynt reporting. The hospital is full. Industries — sawmill and dairy; 385 acres. (Raymond and Betty Harold were also present.)

Smithville Academy, Jack Harrison, principal. They have 9 students, going to 11th grade this year; 40 to 50 acres. A doctor friend helped them get a 50 x 100 building next to them. They got a number of items at very low cost from a surplus company.

Little Creek School and San. has almost full occupancy in new sanitarium; 60 students in academy. No smoking in San. Holding up health standards.

Pine Hill Sanitarium. Robert Santini, administrator, spoke of the 40 to 50 units started by Madison. . . . The Beaumonts started Pine Hill in 1921 on 90 acres. The old farm house is still there as part of the old sanitarium. It is too close to the city of Birmingham for a school.

Harbert Hills Academy and Nursing Home, L. L. Dickman reporting. The school got its name from a local judge by the name of Harbert. The late William E. Patterson, who had a dream to start a self-supporting school

was the founder. It started out with 270 acres, and later got 500. Patterson helped raise funds for the academy, and in recent years the nursing home. Harbert Hills has the distinction of being the only Adventist Academy to have a radio station.

The Dickman family has been involved in the institution. "Louie" was the first principal of Harbert Hills Academy, and is now president of the institution. (Bob Wint is principal of the academy.) Mrs. Dickman (Geraldine), an R.N. from Madison College, is administrator of the nursing home. The three Dickman children have grown up and left the nest. Randall and his wife Pam live on campus. He was seriously injured in an accident some years ago, and confined to an electric wheelchair. He has continued his education at Southwestern College, and will soon receive a B.S. in Social Science in the off-campus program. He is teaching in the academy. Stephen got a B.S. in Engineering at WWC, and is now a civil engineer with the Army Corps in Oregon. Pamela Dickman is assistant dean of girls at Cedar Lake Academy in Michigan, and teaches Home Ec there.

Saturday Night, M.F.I. by John Freeman

At the closing meeting, Saturday night, John Freeman, president of Maranatha Flight International, spoke in his usual enthusiastic manner, and showed slides of his organization's work all over the world. Churches, schools, hospitals, and other buildings are constructed in a very short time (usually in two weeks or less). Volunteers came and donated their time and skills for projects in the U.S. and overseas. Many are retired Adventists, however young people are getting involved too, such as a group of Andrews University students and staff who went to Belize, Central America during Christmas vacation. They built a church and school on the grounds of Progresso Vocational and Health Institute.

The project was led by John Youngberg, a former student of Laurelbrook School, Dayton, TN., but at the time a senior industrial technology student at A.U. and president of the Andrews Chapter of Maranatha Flights and newly elected executive secretary of the parent M.F.I. Organization.

### Energy Conservation

A most important presentation for today was given by Randall Dickman at the L.E.L. Convention. Saving on heat and air conditioning bills is quite necessary these days. Randy told how they saved \$10,000 at Harbert Hills by conservation measures in their buildings in one year!

The first step was to get an energy audit done by the Tennessee Valley Authority, which was done without charge. This audit revealed a number of measures where thousands of dollars could be saved. Recommendations were increasing ceiling insulation; changing their electric resistance heating system to a water-to-air heat pump; installing a new hot water heating system; installing solar film on the west windows in

the nursing home; and weather stripping their doors. All these measures they implemented. Of course it took an initial investment of money and time, but the results were fantastic.

● Randy submitted 11 pages going into detail regarding the various methods of energy conservation, and a 4-page energy resource list of names and addresses in various States. He says the three most expensive ways of heating are propane gas, electricity, and oil. Lower cost alternatives are natural gas, coal, and wood. If you would like to get the complete document, send \$5 to Randall Dickman, Rt. 2, Box 214-C, Savannah, TN. 38372, and ask for a copy of his paper, "Energy Conservation."

● From *Poinsettia* of Groveland Academy we learned that Groveland Academy in Florida celebrated their 25th anniversary at a special Thanksgiving service Nov. 27, 1983. Bernie Sheffield, a founder of Laurelbrook, also founded Groveland, in 1938.

● Pat Seibert, daughter of Elaine Tucker '35, and husband, Martin Seibert, of Veronia, OR., have joined the Laurelbrook staff. She is serving as dietitian and kitchen supervisor of the sanitarium, and he is working in maintenance. Their little daughter Laurie is in school there.

### Midwest Self-Supporting Workers Meet

The July, 1983, *Self-Supporting Worker* announced a special weekend meeting at Alpine Springs Academy, Fountain City, Wisc. on Oct. 21-23, 1983, and listed program topics and speakers. Linden McNeilus, editor of the *Self-Supporting Worker* was the program director. A few months ago he called the SURVEY editor and asked for my picture and information. The whole front page of his July issue was about Madison and Mable.

We appreciate Businessman McNeilus and his paper. He says he sends out 1500 to 2000 copies each quarter, and includes each conference office in the U.S. If you are not receiving the *Self-Supporting Worker*, write and ask for it. Although he will send it free, a check of \$2 (or more) would be appreciated. Address is P.O. Box 700, Dodge Center, M.T. 55927.

### Have You Donated for the Farm?

Donations and letters have still been coming in for the farm. Have you sent yours?

● LOUISE KUIKEN '51, Bethel Sanitarium, Evansville, IN., was glad to hear about the farm, and wrote this personal note: "You deserve much credit for your hard work and stick-to-itiveness."

● Elder H. R. BECKNER, former president of M.C., wrote from Knoxville, TN.

We are thrilled over the Farm Program and have sent \$50. for same. We will be praying for you and "Mr. Agriculture," a beloved friend, Frank Judson. We thoroughly

enjoyed the March SURVEY and the wonderful news of the Madison farm and all the other news. Enclosed is our check for the SURVEY. May God continue to bless you in the good work you are doing for the Madisonites, of which we are proud to be numbered.

● Frank Judson and his assistant, Nicolae Coman ("Nick") have been digging holes for fruit trees in the area back of the maintenance building.

These trees will probably be planted before you get this SURVEY. (Incidentally this young man "Nick" and his family came over from Rumania. He is a hard worker and is employed for the winter months by academy maintenance.)

● Other practical training courses are going on at Madison Academy. Computer Programming is being taught by Ken Shaw to academy students, also evening classes for hospital employees and the community. Dennis Stirewalt, in charge of the cabinet shop, a new thriving industry, is teaching cabinet making. Darold Edwards teaches Auto Mechanics and Ceramics in the old food factory, and his son Ritchie is teaching Auto Body work nearby in the old laundry building.

● The academy laundry business has greatly increased with the addition of some Metro hospital contracts, which helps students on their expenses, also brings a tidy sum of profit for the school.

### Orchard of 433 Trees

An orchard of 433 trees was scheduled to be planted in December — six varieties of peaches, three of cherries, three of plums, and one nectarine; and a grape vineyard of four varieties. In the spring of 1984 it is planned to plant strawberries, blackberries, blueberries, and raspberries. Also in the spring around 14 acres of truck garden will be planted. A generous donor, who does not wish to have his good deed known, has given \$4,000. to be used to purchase an irrigation system.

### From the Editor

Time is rapidly passing, and I wanted to write much more for this issue — especially include more about the Madison reunion in Loma Linda in June, and the ASI convention at Lake Gunterville, Ala. in October. I have fairly well covered the L.E.L. meeting at Harbert Hills, which started at the end of September, but with great difficulty this time as there was a break down in getting tapes. (At this writing I have not been able to get a summary of the keynote address, and may have to postpone it until the next issue.)

● Please do send a change of address when you move. We can't imagine why when people move they don't notify the post office. They have change-of-address cards for free which make it convenient. It's bad enough to take care of the change when we get it, but now and then we are notified that the SURVEY is not being delivered, but no new address at all.

## Two New Self-Supporting Units

● Elder James Lee of Banning, CA. was given a few minutes at the Madison reunion to tell about Oak Glen Outpost, an education and health center in Southern California, which he and others are starting. It is located on 220 acres on the southern slope of Mt. San Gorgonia. Lee calls it "a Madison-type laymen's training school," a "four year, non-accredited secondary program," where agriculture and vocational education will be emphasized." The name and address given on the brochure is Pacific Outpost Foundation, P.O. Box 1844, Loma Linda, CA. 92354.

● Elder James Lee gave us news of his son David and his correct address. He is now with Country Life Farm, as a part of the team for their city mission in Los Angeles where they have a bakery and health food store. David Lee's address is Box 324, Lake Hughes, CA. 93532, in case some may wish to get his price list of books and literature on self-supporting, Medical Missionary work.

● While in Loma Linda this editor called at the LLU alumni office of the School of Medicine at the L.L.U. School of Health at the Heritage Room of the L.L.U. Library. I also saw President Olsen of L.L.U. briefly, presenting him with the famous tape of E. A. Sutherland's talk to medical students in Loma Linda in 1946. I told him it had been suggested that this be played to freshman medical students each year.

## Madison Nurses, Take Notice

Nurses 70 Years Old or Older. Seventh-day Adventist nursing is 100 years old. ASDAN is planning a celebration of this and wishes to give recognition to you. Send name to Elizabeth Sterndale, Associate Director, Health and Temperance Dept., 6840 Eastern Ave., N.W., Washington, D.C. 20012. Include school and year you graduated, and short resume of work experiences. ASDAN's celebration to be held at the Walla Walla School of Nursing, Portland, Ore., June 1984.

### Self-Supporting Academy in Oklahoma

Oklahoma now has a self-supporting academy located at the town of Harrah. Elder Jim Hiner is the president and Lee Davidson the principal. Carl Alessandra, formerly at Pine Forest Academy, has transferred to Oklahoma Academy.

### Addresses and Information Wanted

Mr./Mrs. Lloyd Bailey, Mr./Mrs. Conrad Chipman, Mrs. Marie Holland; Bereket Michael, Dr. Leonard Ramey; Mrs. Maureen Watson, Dr. Lindsay Winkler, Jean (Moore) Ryder, the Cheevers brothers.

● For a long time we've been puzzled over two Ruth Nelson names of M.C. graduates. One graduated in 1940, and the other was here 1948-50. The latter may have gone by name of Nichols and/or Soloman. We'd appreciate information on these two Ruth Nelsons.

# ALUMNI NEWS

1930. ALFRED A. ROCKE (N '30) sent SURVEY renewal and change of address to Riverdale, CA. He wrote as follows:

"I am not one to do much writing etc., but I really enjoy the SURVEY. I'm not in the best of health — many of the students that were there when I was there (1924-30) have died. Also those on the faculty.

"My sister, Irma Rocke, and Laura Winn keep me posted. Thank you for sending me the SURVEY. I enjoy the letters from the 'old-times.'

1932 & 1942. From time to time we hear of accidents our alumni have suffered. This letter from Edith Sauer, of LeMoore, CA., may top them all.

"On Aug. 12, 1983, on my way back from North Dakota, I lost control of my car on a gravel road. My car rolled over a time and a half, totaling the car, and almost finishing me. I was in ICU for 5 days, . . . in the hospital six weeks. I had a fractured left knee, fractured ribs on left side, left shoulder out of place, a broken collar bone, and a whiplash. . . . I was sent home by ambulance from Elgin, N.D. to Bismarck, then by plane to Fresno, CA., then by ambulance to Hanford Community Hospital. . . . I still have a lot of pain. The Lord was good to spare my life. He must have a work yet for me to do." (Edith said she was 77 years old in October 1983.)

1935. *Southern Tidings*, Sept. 1983, reports how Dr. Oliver Anderson '35 of Hialeah, FL., is using an effective evangelistic approach of reaching his patients. In a monthly newsletter he invites them to attend a Health Yourself Seminar at Hialeah Hospital.

Lectures in exercise, rest, weight control, vegetarianism, and other health principles were presented by a couple from Miami Temple Church. A Breadmake was conducted and a vegetarian dinner served at the end of the series. There was a good attendance and response. Dr. Anderson is planning another series for fall and winter.

1938. Ralph Martin, Jr., son of RALPH MARTIN '38, former Ministerial Association director of the Northern California Conference, was recently elected president of the Nevada-Utah Conference.

### Erma (Long) Serles, Hinsdale, Ill.

Erma Serles (N '38) called long distance from Hinsdale to give us the correct address of TOM and SHIRLEY MINO, both of whom graduated from Nursing at M.C. in 1956. They are now in Hawaii. Tom has made a career in the Army Nursing Corp., and is now a Lieutenant Colonel.

Erma remarked that she was glad to have this editor at the helm of the alumni association.

### Update on John and Stella Thiel

While in L.L. for the Madison reunion in June I called Stella (Williams) Thiel (N '41) who had moved to Redlands, where she and husband John had retired. She was enjoying

retirement, but said her husband was restless. He called up a friend of his former company, and was working part time. We noticed the following items in the A.U. Focus: "John Thiel (EMC '43) has retired from work with the federal government in Public Health Service / Food and Drug Administration. His wife, Stella, is a retired, registered nurse, and they are living in Redlands, Calif. Their children are John, a doctor in Redlands, CA., and Don, a computer systems analyst for the General Conference." (A.U. Focus 7/83 p. 22.)

1942. Dr. U. D. REGISTER is chairman of the Department of Nutrition of the LLU School of Health. His wife Helen is assistant professor of nutrition. They are frequently called on to lecture and participate in health related activities at churches, campmeetings, etc. Recently they sent life dues and wrote: "Thanks for the SURVEY all these years." They have three married daughters, all in California — Betty Kinscher, Dottie Downs, and Debbie Mateer.

● Did you notice the two articles in *Adventist Review* titled "Jasper Wayne — Adventist Innovator"? Did you know that Jasper Wayne, the originator of the Harvest Ingathering idea is the father of DOROTHY WAYNE BOWES. Written by Pastor Richard Bowes, grandson of Jasper Wayne, the author relates many interesting sidelights regarding his grandfather as an innovator of other ideas.

● 1942. John Jensen, M.C. student 1955-42, is the new administrator of Castle Valley Institute, Moab, Utah. He and his wife Louise went to Utah in 1970 with a group of workers to start this self-supporting unit. After three years he was called to Zambia, Africa, to head the work at Riverside Farm Institute. Later he spent two years in Okinawa in the work there before returning to the States. The past two years he spent at Wildwood Medical Missionary Institute.

● JO BENGSTON '43 fulfilled her promise to come and help a few days in the alumni office. She drove over from Fayetteville, TN., and stayed in the guest room of the Heritage House.

● Arlene (George) Bailey is working at Huguley Hospital, Fort Worth, TX. She and her husband, Ernest Bailey, live in Keene, TX.

### Update on Victor Seino Family

VICTOR and RUBY (Kataoka) SEINO met at Madison while students in the early 40's. They were married in 1953. Ruby was in college here in 1943-4. Victor went to C.M.E. and got his M.D. in 1950. He is practicing medicine in west Los Angeles, a Japanese Community, and is elder of the Santa Monica SDA church. Ruby has been very active in LLU Women's Auxillary. She was president of that group 1980-81.

Of the Seino children, son Robert is working for a Doctor of Health Science at LLU. Son Kent is interested in business after finishing LLU. Son James graduated recently

from LLU Dental School and is looking for a good place for practice.

In answer to our inquiry about his brother, Yoshio Seino, Victor wrote: "My brother Yoshio went back to Japan after finishing Theological Seminary in Washington, D.C., worked for the church as editor of the Japanese Signs of the Times, was secretary of the MV Department, teacher at Japan Missionary College in Chiba, and translator of Ellen G. White's books. . . . He came to the U.S.A. as a Japanese delegate to attend the G.C. Session in 1980. His wife, Masako (Yamagata) has been very active in organizing a ladies group and teaching at our school in Chiba, Japan."

1950. Dr. RALPH P. BAILEY sent alumni dues and a contribution for the farm project from Nairobi, Kenya, Africa, where he has been serving as director of education for the Eastern Africa Division. At the recent Annual Council at G.C. headquarters the Eastern Africa Division was merged with the Trans-Africa Division. Dr. Bailey was elected educational consultant of the new Eastern Africa Division.

● When Bailey's former teacher, Mrs. Sarah Stuyvesant, learned that he was educational secretary of the Eastern Africa Division, she wrote from Loma Linda, CA. "Isn't that fantastic! I had him in my Bible Literature class. He said that was the best class he ever had, and still uses it."

● Floyd O. Arnold, pastor of the Startup, Wash. Church, was recently ordained to the gospel ministry. Announcement of the ordination and a picture of himself, his wife Beulah (Vickers) appeared in the North Pacific *Gleaner* of Oct. 17, 1983. "Vickie" and Floyd were married in Penaleton, OK, in 1958. They have two children — Kristopher, at home, and Pamela Penee (Mrs. Dan Tomezek). At the ordination ceremony their daughter played a piano solo which she composed and arranged.

## LETTERS

**Bobby Jean Harrison (M.R. '57)  
Dalton, GA.**

(Bobby Harrison sent life dues and such good family news, neatly typed, that we did not have to edit or type it over. Such a joy to an overworked editor!)

We now live in Dalton, Ga. where we have lived for the past 20 years. My husband Gene Harrison (X-ray '57), is administrator of Wood Dale Health Care Center. I (Medical Records '57) do medical records and am social worker for Wood Dale and do some consulting with several other homes in Georgia.

We have three children. Sherry just graduated from Medical Technology at Loma Linda and is now working at the University Hospital. Our twin sons, Thomas and Timothy, live here as well as our youngest son Steven. Tom went to Dalton Jr. College, finished Diesel Mechanics, and he is now working at North Georgia Toyota here in Dalton. Tim is married and has a son and a

daughter. Steven is taking computers at Dalton Jr. College and working nights at the hospital here.

My parents had their 50th Wedding Anniversary last Dec. All their children were here. Evelyn Meyer (Nursing '57), myself, Carl Moore from Lincoln, Ark., Barbara Link from Pennsylvania and Patsy Post (M.A. about 1960) from Dallas, TX. It was a lovely reception held in the fellowship room of the Dalton, Georgia, Adventist Church. More than 50 friends came by to wish them happiness. My father, A. R. Moore, was gardener at Madison about 1948. My mother, Opal Moore, is an LPN and worked at the Madison Hospital.

(Imogene Shepard (N '59) Avon Park, FL. wrote that she planned to attend Homecoming but did not come. She also tried to help us with the address of Joanne Smith Walker.)

We plan to be at homecoming in June. Joanne (Smith) Walker has moved so will get her new address. . . .

I'm on vacation after working over four years on a private duty case in a patient's home. My husband, Hugh, is still painting with Walker Memorial Hospital here. My oldest son, Mike, born at Madison, is in Savannah, TN. My daughter, Durienda, lives here and just had her first baby, a boy. My youngest daughter, Marcella is still home and we plan to spend the summer visiting my parents here in Florida, and also babysitting and taking care of our new grandson.

We always enjoy the SURVEY. My husband reads it too. We were married the last two years of my course there, so he knows a few people.

**Beth (Gober) Carter '62  
Belize, Central America**

Eight years ago my husband, C. D. Carter, and I went to Laurelbrook Academy to work for four years. From there we spent two years at Wildwood, he as farm manager and I as nurse-anesthetist. Then we were called to help here in the pioneer mission station of Progresso Vocational and Health Institute in Belize, Central America. In January, 1983, my husband was made director.

The Lord has really blessed and guided in the work here. The greatest blessing so far is the beautiful new church in the nearby village. Maranatha Flights International came and worked so faithfully to erect this memorial of God's love. . . .

The nurses' work load is made much more complicated as they walk the 3-mile round trip to give treatments in the village, present health lectures, or have clinic in the government clinic. . . .

The water situation on campus had become critical, so Wildwood land management donated three new holding tanks that provide showers and water storage. Also pipe has been secured to furnish the clinic with water. . . . The farm continues to provide many of the fresh vegetables and all the fruit we need to have for institutional use and some tropical fruits to sell. . . .

The first and third Tuesdays of the month are "boat clinic days," when some of the P.V.H.I. workers pack up their medical gear and a lunch in a hollowed-out log canoe to cross the lagoon to nearby Chunox and the Mennonite settlement of Little Belize.

If you are interested in helping this self-supporting missionary work, mark your gift "Belize, Central America" and make it payable to Wildwood Sanitarium Inc., Wildwood, GA 30757.

**Jerry and Carolyn Shilling  
Stoneham, Mass.**

It is always a pleasure to receive our newsletter. We always like to read the news about our friends. I have enclosed a check to keep the newsletter coming.

Jerry is currently enrolled in an external degree program, working towards a health administration degree. I will be graduating Sept. 15, 1983, from Northeastern University here in Boston with a B.S. in health record administration.

Our son Jerry is 15 this September and will begin attending Greater Boston Academy.

**RUBY WINTERS (M.R. '65)  
Portland, TN.**

Our daughter, Debby, passed her specialty boards for Diplomate of American Board of Radiology and is currently working with a radiology group in Bakersfield, Ca. She really loves her work. Her husband, Clyde Marlin is a medical technologist.

Son James Winters is director of the computer department at Volunteer State Gallatin. Son Danny graduated Magna Cum Laude from M.T.S.U. in Information Systems in May. He is now employed as a systems analyst for J. C. Penney Company in Atlanta, Ga. Son Mark, has his CPA and five years auditing experience, and is an internal auditor at LLU hospital, Loma Linda.

(Ruby has been busy with homework and a big garden this summer. Husband Wesley has been working at Wilks Publishing Company at Portland, TN. They have been building a duplex for rent adjacent to their own home near Highland Academy.

**Marjorie Illingworth (M.R. '65)  
Loveland, Colo.**

(Marjorie wrote in answer to our inquiry as to her correct address, and sent a donation for the farm project.)

We bought a house a year ago this February — so that may be the reason for the SURVEY not reaching me, especially second class mail. I'm so glad you have taken the trouble to investigate the problem as I do enjoy the paper. I always learn news about people I had lost track of.

I'm well, and as usual very busy with my volunteer activities. I spend three hours a day five days a week as site manager for a senior citizen center, also am a hospital volunteer.... We had a three-week trip to Nova Scotia and the New England states and Canada this fall.

Rochelle Philmon Kilgore  
S. Lancaster, Mass.

Today's mail brought a copy of "The Madison Survey," and this evening I have read every bit of the long ago. It was my privilege to see P. T. Magan, E. A. Sutherland, and M. Bessie DeGraw at Madison. I have always been interested in Madison. I knew Arthur Spalding and his wife at Madison. He was the secretary (amanuensis) much before that for Elder Robert M. Kilgore, who became my father-in-law.

I am glad Madison Academy is trying to make good use of the Madison College farm.

I am enclosing a check for \$10. to renew my subscription to the SURVEY and another one of the same amount as a gift to Madison Academy.

Love and happy memories

(Mrs. Kilgore was my English teacher at Union College. It was thrilling to me, while taking her Journalism class to have a Christmas story printed in the Lincoln, NB., newspaper, titled "Wanderer Returns." M.H.T.)

P. E. Iverson, Oroville, Ca.

(P. E. Iverson and wife were Madison College students and workers at the vegetarian cafeteria in Louisville in 1927-33. He is author of "Jesus Christ and God's Remnant Church," and "Christ All and in All.")

The December, 1982 SURVEY was especially interesting to me. Dr. Graves' long article on his experiences of getting out of Guatemala, as I had not heard from them since they left there. We were at Madison when he came there and I knew his uncle was out at Union Hill.

The other article of interest was the one by Dr. J. T. Wheeler. We stayed at the Pewee Valley San when Olga and I worked in the Louisville Vegetarian Cafeteria. I would like to get his address.

I am sorry I did not know Dr. Lew Wallace was living in the Paradise, Ca. area as Oroville is just 22 miles south of Paradise, CA. The Nivisons were in our church several years ago, but I lost contact with them. We did not know them too well as they came to Madison a short while before we left there.

Irene (Felice) Osborne  
Avon Park, Fla.

(The June SURVEY for Dr. and Mrs. Wesley Osborne came back from Avon Park, FL., for lack of proper address. We got the correct address from Carol Wickham who is now an accountant at Walker Memorial Hospital, and wrote Irene for address and update on the Osborne family. She gave us information on all but herself, but we heard she was deep in Pathfinder work as she used to be at Boulevard Church in Madison.

Dear Mable: Thanks for taking the time to run down our address. You're such a faithful pioneer. God bless you! We are all

fine. My doctor-husband is enjoying retirement from his OB-Gyn practice. He is keeping our four lots beautiful.

David is still the pastor at the A.U.C. College Church. Son John is pastor at Naples here in Florida. He's just starting a T.V. ministry. Our daughter Pat has moved to Hagerstown, Md. Her husband, Bill Kirstein, just got called to the Art Department of the Review and Herald. Our other daughter Judee is in Sacramento with her preacher husband Jim Crabtree, youth pastor of the Sacramento church. Judee is taking classes on counseling, and wants to get her masters.

We love the SURVEY and all Madison does. I can never praise our school enough.... Love you all.

● Irene Osborne saw that we needed an address for Mary Donesky. She gave us the address of Mary and John Donesky in Lake Placid, Fla., where they are key personnel in the new hospital there.

However we were asking for information on John Donesky's sister Mary, not his wife Mary. Someone thinks his sister Mary had married and lives in Canada. Anyone have further information?

### "Singles" in Missionary Service

An article by Don A. Roth in Adventist Review (7-28-83) "Singles in Missionary Service," lists a number of missionaries, mostly single women in the Far Eastern Division. Among those mentioned was Betty Fleming, a former M.C. student, also Marion Simmons. A picture of the latter appeared, with this caption:

"Since returning to the United States from regular mission service in the Far Eastern Division in 1974, Marion Simmons has served as a volunteer worker in Sri Lanka, Thailand, and Guam. She now resides in Hendersonville, N.C."

Marion Simmons, educational consultant and supervisor, completed three volunteer assignments overseas after retirement.

### Other "Singles" in Other Countries

● Wilma Gill, our intrepid missionary nurse to Kendu Hospital, Kenya, East Africa was not mentioned. Also going farther back there were valiant missionary nurses to various hospitals in Africa — Ruth Carnahan and Marie McCall who each served for long periods of time. Ruth is retired in Loma Linda and we're not sure where Marie McCall is. Can someone write in and tell us?

● Carolyn Stuyvesant served in Ethiopia, Shelia Robertson in Kenya; Basutoland, and Tanzania, Africa. Rae Anna Brown served in Benghazi, Libya, Kanye, and Botswana, Africa. Petra Sukau went to Burma, Hallie Thomas to India, Dorothy Rudisaille to Ethiopia, and Louise (Leeper) Bowman to Kamagambo, Kenya, Africa.

● Marion Simmons attended two other Homecomings, where she was in an honor class, before coming to Madison where she was in Honor Class of 1943. At Union Springs

Academy, where she graduated in 1923 she received the Alumnus of the Year Award. At Atlantic Union College she was the Commencement speaker. She clocked up 50 years in educational work before retirement. She has received several awards, including a Certificate of Excellence from the G. C. Department of Education in 1972 and Woman of the Year certificate in 1975.

Thelma Hansen Reed (M.C.A. '38)  
Kailua, Hawaii

The MADISON SURVEY just arrived and has been read from cover to cover. You do a fantastic job in making it so informative and interesting.

I'm wondering if you really have me as a MCA '58 graduate in your records or if it was just a typographical error. It was '32 or '33 when we (my brother Elton, sister Doris, and I) graduated from the 12th grade there at Madison Academy. I took two years of college work and left during the summer of '37 and finished my B.A. at PUC. You don't need, for my sake, to put a "correction" in the next issue. Just let folks think I'm younger than I am! (Our mistake! — Ed.)

### The Scotts and the Ownbys Featured on Sand Mountain History

A delightfully interesting bit of Madison history appeared in Southern Tidings of November, 1983, pages 28, 29, titled, "Not Far From Home," by Alice Robertson. At the 5th annual North Alabama Campmeeting, held on Sand Mountain, Bryant, AL., there were three people who had passed the 90-year mark. Lucian Scott and Dr. Roscoe Ownby were two of these. Brother Scott, born in 1887, and his wife Cora started a school on Sand Mountain. She was the teacher, and he was the country preacher and funeral director. Sometimes he even had to build the caskets. . . .

Later Lucian went to work as a truck driver for Dr. Ownby. He is still active in growing fruits and vegetables, walks to church and prayer meeting.

● Dr. Roscoe Ownby was 90 on Sept. 2, 1983. His initial medical training was at Kurksville, MO. In 1918 he went to Kansas City to take advanced work. There he noticed two devout men, and asked to have Bible studies, and was baptized in 1924. He learned of the work of E. A. Sutherland and came to visit. He agreed to work for a few days in the lab and pharmacy. Sutherland invited him to take charge of the work at Madison two weeks while he went to campmeeting in California, but remained here for five months. Later he and his wife Grace, an R.N., settled on Sand Mountain, and took care of the people who often had little to pay. The conference furnished them with a horse and cart to use in going to their patients. Sometimes they traveled by horseback. Dr. Ownby has just completed his 56th year of practice on Sand Mountain. He and Grace (R.N. from Madison in 1928) have delivered about 3000 babies.

**RALPH and DOROTHY DAVIDSON**  
**50th Wedding Anniversary**  
**A Memorable Occasion**

Ralph and Dorothy (Foote) Davidson celebrated their 50th wedding anniversary on June 12, 1983, at the Lion's Club Building in Woodbury, TN. Hostesses were their four daughters who kept the plans secret from their parents. Virginia Sellars and family came from Dayton, OH; Anne Pettey and family from Eureka, CA; June Littner and family from Troy, ID; and her twin, Joan Rouse and family from Grange Ville, ID.

Each of the four families presented musical numbers on the program. The final numbers were three choral presentations by all the relatives, about 75 people. A total of 175 from all over the U.S. were present for the joyous occasion.

A longtime friend, Nora Melendy, baked the beautiful 4-tier cake. Lou Ann Hyde presented the "This Is Your Life" part of the program.

**Surprise for the Straws**  
**50th Wedding Anniversary**

Previous to their anniversary date on Sept. 3, 1983, Rogene Goodge slipped in an extra note in the Little Creek Newsletter regarding her aunt Alice and "Prof." (Leland) Straw's 50th Wedding Anniversary. She asked the "Ex Creekers" to send letters and cards and pictures to her to put in a scrapbook. Many friends and former students complied and came. A big scrapbook, running over, was presented to the happy couple, also flowers and phone calls came in abundance.

**60th Anniversary for Fred Motes**

Elder and Mrs. Fred A. Mote, of Coalmont, TN., celebrated their 60 years of marriage at the home of their son, Dr. Fred Mote in Portland, Ore. Their daughter Ardena, wife of Elder R. E. Parks, helped with the occasion.

Fred Mote and Florence Blake were married on July 7, 1923, in Cicero, IN. They spent 18 years in the Far Eastern Division, and he was president of the Australian Division six years. He retired in 1964 after serving six years in the G.C., making a total of over 41 years for the denomination.

Shortly before retirement Elder Mote acted as liaison between the G.C. and Madison College, striving to keep the college from closing. He has been a member of the Layman Foundation board for some years.

**Beckners Celebrate 50th Anniversary**

From the Atlantic Union *Accent* we learn that Elder Horace Beckner and his wife Vida (Tomlins) celebrated their 50th Wedding Anniversary. Elder Beckner formerly was president of M.C.

Ralph and Dorothy Davidson at their 50th Wedding Anniversary. Flanked on the left by Virginia Sellars and Joan Rouse, and on the right by June Littner and Anne Pettey.

**HERITAGE HOUSE ACQUISITIONS**  
 Posthumus Gift from Jeanette Sego  
 via Geraldine (Wisdom) Zimmerman

Through a series of circumstances the Heritage House has acquired a complete set of all the Cumberland Echoes, 1948 through 1964 (16 volumes), plus one of those rare valued 50th anniversary albums.

Also a paper back edition copy of the 1948 annual of Mt. San-Hosp. with a picture of Jeanette Sego on page 7 listed as supervisor and instructor of Obstetrics; and on page 8 a picture of Gladys Lowder listed as director of nursing service.

About two years ago a nephew (Leonard Hearin) of St. Louis was in Madison Hospital on a business trip and as he passed by the volunteer desk he told Velma Jeffus that there were some items from "Aunt Nettie's" effects that might be available. He left his phone and we called a number of times. He gave us names of another aunt who was to sort out and dispose of Mrs. Sego's things, and we phoned several more times.

When we learned Geraldine Zimmerman of St. Louis and her daughter Susan were driving through to Homecoming we asked Geraldine to see what they could bring, and sure enough it all worked out. We are very grateful to all concerned.

Jeanette Sego, a graduate of the class of '51, died in St. Louis in June, 1973.

Now that we have an extra set of the annuals we may be able to supply an annual to some of you who may have lost your class annual. Also we do have several extra copies of the 1957, 1960, and 1964 annuals, which may be ordered at \$3 each.

● Also we have extra 8 x 10 pictures of the college class of 1958, the Nursing Class of 1958, the Nursing Class of 1962, and Madison Academy Class of 1958; and in addition a few other years. Write if you need your class picture.

**Geraldine (Wisdom) Zimmerman '34**  
 St. Louis, MO

When I came to Madison, I didn't know anything about nursing, but I listened to what they said and studied hard. I didn't know anything about the mark of the beast. One day in 1932 I was really surprised to see over the hospital a big red sign "N.R.A." I looked at my hands. I felt of my face. I thought, has Dr. Sutherland put the mark of the beast on us!

As I stood there, a young man came by and asked, "What are you so concerned about?" I told him about the sign, and he said, "That is the N.R.A." I didn't know what the N.R.A. was. We didn't have any radios, and didn't know what was going on. One thing I knew, I was going to be faithful. Dr. Sutherland had always drilled into us that we were students of the school of the prophets, and we should act like them.

I fell in love with one of the nursing students, Roland Zimmerman and we were married. He passed away two and a half years ago. He was of the class of '36. He too, believed in the school of the prophets, everything in it, and when we started our home, that is the way we had it. He worked for the church 20 years, I had the kindergarten for campmeeting in Missouri.

At Madison, in the nursing field, we didn't have anything to work with, as during the war the boys had everything, medicines, etc. We even made our own bandages and fluids. I often wonder how we did it. Miss Florence Dittes would always say, "We must represent the Lord, we must always be nice and clean, because we are SDA's. We must act like we are."

I worked in St. Louis Jewish hospital for 50 years, and they would say, "That is Mrs. Zimmerman. She is an Adventist." I always kept my cap clean, with my shoes polished, and everything.

In the meantime, my husband and I bought property. Of our three children, our son, Roland Jr. is a graduate of Loma Linda with a degree in oncology. Our oldest girl, Rosemary Baugher, is a graduate of Union College. She is an R.N. Susan Jane, who is here with me is a graduate of Loma Linda in education. She teaches at Union College.

I had a beautiful experience just before I retired in September. I was called in by the doctors at the hospital in regard to isolation technique. . . .

I went through that every step of the way. I remembered when I worked at Madison we had a room right across from the nurses station where we kept our isolation cases, and Miss Dittes would watch us, and I was going to do it just right.

The doctors listened very intently, and one of them turned to the other doctors and said, "Mrs. Zimmerman did it just right. In fact she is the only one that did it right."

I walked away and said, "Thank you, Madison College and Sanitarium! And thank you for listening to me today.

# LETTERS

**Lois Barker (Prac. Physical Therapy)**  
Holdrege, Neb.

Dear Madison School Friends: The June issue of the SURVEY telling of the Homecoming brought me much joy. It was so good to learn where some of you are and what you are doing. How good it is to learn that the original plan for Madison is being revived! That really pleases me, and I believe the Lord is certainly pleased.

It would be so nice to be there at Homecoming, but I had planned to go to Indiana to see my grandchildren whom I've not seen for three years. . . .

As soon as my trip there is over, then our campmeeting begins. Just hope I can be equal to all of it! Besides, I've started some garden again this spring. All this on top of cataract surgery. Had an implant. Occasionally I help the health food store here in Holdrege, NE. . . . May the Lord bless every one of you.

**Cecil and Mary Ellen Hopps**  
Temple, TX

CECIL (N '58) and MARY ELLEN (Anes. '58) HOPPS were not present at Homecoming, but we have news of them through Bernard Bowen who passed on this note a while back:

"Cecil and I moved to Texas in March, 1982, and are both working at Scott and White Hospital and Clinic. It is the teaching hospital for Texas A & M University Medical School. Cecil has finished his thesis and has his Master's degree. Our son Gary stayed in Avon Park, and is going to school there."

Hazel (Cocke) Reins, Oklahoma City, OK.

Hi! Here is a letter for the MADISON SURVEY — I do enjoy it much and do appreciate your efforts in getting it put out. I am Hazel (Cocke) Reins, a former student of years ago and recognize many names in the news.

Sorry I missed you when I was in Madison last year in June, on my way to World's Fair. It was a fast trip. But I did see some former Madisonites there in Knoxville where we stayed at the Little Creek school.

My family has grown up and scattered — Texas, Kansas City, and Minnesota, but I prefer Oklahoma. So I am staying here and working, part time. I plan on traveling more now. May make it back that way.

## A Note of Appreciation

After Homecoming Marion Simmons '43 wrote: "You've done it again Mable! I'm sure you are glad the alumni weekend activities are over. Now I hope you can take a bit of a rest, but knowing you I can visualize your getting back to work immediately on the next SURVEY. You have done well. God bless you. . . . "Both Helen Sandborn and I were glad we came."

## College Class of 1944

We have assembled pictures of the college class of 1944 — a "missing link" on the "picture tree". Thank you who sent in pictures. It wasn't easy. A few in the class did not answer, but Ruth (McElhany) Viel saved the day by sending in a good picture of 7 members who were taking Nutrition and Dietetics — Annabelle Brooks (now at Cave Springs Home as dean of girls, Pegram, TN.) Evelyn Beeler Ruggles of Loma Linda, Ella Yamamoto, of Honolulu, Hawaii, Ruth Viel of Rochester, N.Y., Shirou Kunihiro of Loma Linda, Tairo Shinohara of Los Angeles, and Ichiro Tabuchi of Japan.

We were able to obtain a picture of Dr. Albert Dittes, Portland, TN., Elfa Lillie Edmister of Jasper, TN., Chaplain Robert L. Mole, chief of chaplains services, V.A. Hospital, Loma Linda, and Dr. Other F. Speaker of Ellijay, GA.—two were actual graduation pictures and two improvised (Mrs. Lily Gleyse of Chattanooga sent a picture of her son, the late Vergil Jenkins.)

**Dr. & Mrs. Shirou Kunihiro**  
Loma Linda, CA.

(In answer to our request for pictures of the Madison College class of 1944, so we could make up a missing "leaf" in the "picture tree," Dr. Kunihiro's wife. May sent a beautiful colored picture of her and Shirou, and wrote as follows.)

In the group picture of those who took dietetics and nutrition course, Shirou is on the right end. He majored in Chemistry and minored in Nutrition. Taira Shinahara did the same.

I don't know what Ichiro Tabuchi, center, is doing now, but he was teaching at Hiroshima San-ikee Academy for some years.

I was at Madison for a couple of years but never graduated. We were married the day after graduation in 1944.

My husband is at present in Japan shouldering a task of converting a non-Adventist private school to an Adventist school. A few years ago Shirou baptized the founder of this school and this elderly gentleman, who is 94 years old, has offered the school to the denomination. Please remember him in your prayers as we shall remember you in our prayers for your success in completing your task. God bless and give you health to carry on.

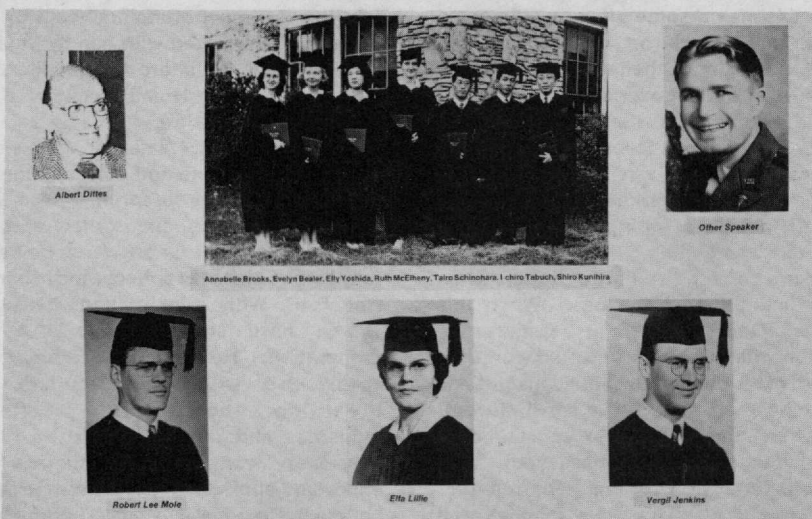

**Dr. Bill Palmer of Corinth, MS.**  
Speaking at Homecoming Vespers

I didn't know it when I was growing up, but my step-grandmother, Cora Rathbun Hutchins and Elder Frank Hutchins had a sailboat along the Bay Islands and did medical missionary self-supporting work from 1890 to 1900. Elder Hutchins died, of Malaria there. Then Cora Hutchins came back and married Edwin R. Palmer, my grandfather, who had lost his wife at Battle Creek.

My grandfather went to Australia and started a work there. My father, Clarence E. Palmer started his career with the Review & Herald by mowing the grass around the building as a 9-year-old boy. At age 14 he worked in the bindery. He became assistant manager of the book department, then circulation manager, next treasurer, and finally general manager in 1958 until he retired in 1971. . . .

I went into the Army, then continued my education, before we had the dental school at Loma Linda, taking dentistry at the University of California. I came back to Loma Linda and taught the first three years of the new school of dentistry.

I had a burden for dental work in the mission program. At that time one had to be an M.D. to do anything in the health line in the mission field. The G.C. didn't seem to realize that a dentist could do frontline work. In the 50's I was the first one to take a group of

## COLLEGE CLASS OF 1944

CENTER: Nutrition Students, l to r. Annabelle Brooks, Evelyn (Bealer) Ruggles, Ella Yamamoto, Ruth (McElhany) Viel, Tairo Schinohara, Ichiro Tabuchi, Shirou Kunihiro.  
AT LEFT: Albert Dittes, Robert Mole AT RIGHT: Other Speaker, Vergil Jenkins  
CENTER BOTTOM: Elfa (Lillie) Edmister

dental students from Loma Linda into the mission field for service. We went to Lima, Peru. In a river boat down the Amazon we worked on the launch and did our dental surgery up and down the river.

Soon after I returned from mission service in South America I went to Chunky, MS. in self-supporting work at Pine Forest. In 1969 we took our program into the South Pacific, going to Sidney, Australia, and other places. Always in my mind I wanted to get back into "dark county" work. I called the Alabama-Mississippi Conference and told them of my desire. They replied that they didn't have a place in their budget for this work. I told them not to worry. I knew how it could be done. We had started the work in Corinth, MS.

At present I am a commissioned minister in the conference, running a program on self-supporting style in our Better Living Center. All that Dr. Bill Seasy and I earn from our dental practice goes to the conference. In turn we are on the conference payroll with conference credentials. After we close our office at 5:30 we go out to work on the houses. Six years ago when we started here, we had no church, nor organized work. Now we have about 60 people coming out to church and we are engaged in a 21 house building project. We have established a clinic, a full service better living center, and a beautiful church.

God helped us get started. A bridge was torn down which isolated some property and brought it down in value. I got a nice home for half price and 80 acres for a sixth of the market price. A year later the government came along and gave us money to build a new bridge. Now we have this lovely center just across the road from the clinic. We went to Corinth, got this land, cut down trees, cleared the forest, planted gardens, and we have beautiful crops coming in with excess of food. We have building methods that have been thrilling.

If I understand the Testimonies properly, we are coming to a time of trouble when all our institutions will be closed. I used to believe this meant some officer would come up and put a lock on the door of the institution. I no longer believe that. As I study the take-over of the government in China, in Ethiopia, and in Cuba where the facilities of the church have been taken over by the new government; most of our people go ahead and work for the government. They go with the stuff instead of going with the vision, for the most part.

We are coming to a time of trouble when all our institutions will close. When this happens, God will do his last rescue operation with what he said would work. He said, Out of the cities—don't build institutions in the cities. He said, Get a small piece of land, where you can gather your children within your borders, raise your own provisions, educate your children, free from interference. . . . These are families well rounded in Christian living, grounded in health reform, dress reform, educational reform, recreational reform, and financial reform. They have written in their hearts the methods God said would work in a time when

there will be no buying or selling and great restrictions. . . .

Let's back every institution of the church. Let's get ready for the time when those institutions will be closed down or out of our control.

We will be glad for you to come by and see what the Lord is doing. I'm not asking you to move to Corinth. I am not trying to start a Jerusalem center in Corinth. We are trying to make a demonstration of what can be done by any layman. We started as carpenters, as farmers, as mechanics, as booksellers, and when those of us who are professionals started, we started on a mission salary.

We are right on Highway 72, halfway between Memphis and Chattanooga. Corinth is about the biggest little city in the world. That is where the *National Geographic* is published. That is where Wurlitzer organs are made, and it is where ITT telephone and telegraph equipment is made. It is where Kimberly Clark Kleenex and disposable surgical drapes are made. That's where the second Mississippi will open next year when the Tom Higbee Canal goes in. So we are a crossroads town — a little town which I believe will be a place where God will make a real witness.

### An Idea

#### Whose Time Has Come (Again)?

Charles Gallimore and his wife Beverly, of Church Hill, TN., came to this editor's door in June. He had a great desire to see a Madison type institution started again, suggesting the name, Sutherland College (although he would not be adverse to calling it an Institute). I asked him, "What about Hartland Institute, just starting in Virginia, and Weimar College?" He still thought there was a need for a school like Madison used to be in the early days.

Although Charles is not a former student of M.C., he has had connection with Wildwood and Wytheville S-H in Virginia. At Wytheville he was thoroughly innoculated into the "self-supporting" concept by W. R. Zollinger, who talked with him by the hours.

Presently Gallimore is administrator of Life Care Nursing Home facility in Church Hill, TN. (near Bristol).

Since our conversation in June we have talked on the phone and corresponded. He has done a lot of research, talked with a number of people and visited at several places in his quest for answers. He believes fully in the Spirit of Prophecy, and in harmony with E. G. White's instructions believes we should have short courses. A quick preparation. He mentioned Bible, how to speak and write, voice culture, deep breathing, bookkeeping, physiology, industries and trades, how to do medical missionary work, and hydrotherapy — all important subjects. They used to have a course in Practical Physical Therapy here at Madison. I have heard that hydrotherapy is not taught in our denominational college nursing schools now. What a shame! Following is an article prepared by Charles Gallimore. M.H.T.

### Self Supporting College in the South?

by Charles Gallimore, Church Hill, TN.

In the June 1983, *MADISON SURVEY* the question is asked on page 2, "With Weimar in the West, Hartland in the East, and Black Hills in the Mid-West, why can't we have a self-supporting college in the South again?"

The answer to that question is, "We Can!" We can, if we work together, give together, sacrifice together, and pray together. It must, of necessity, be the result of a joint endeavor of many individuals with varied talents and abilities. That's as it should be, in order to fulfill Gods desire, that we come together in unity. Working together in unity glorifies His name and purposes.

If you believe that God desires our youth to receive a training that promotes a balanced development, physically, mentally and spiritually, now is the time when your support is sincerely needed.

If you believe that now, as never before, the youth of today need a practical education with a spiritual emphasis, now is the time to act upon that belief.

If you believe these are the last days of the earths history and that what we do must be done quickly and thoroughly, then *now* is the time for decision and action.

(Charles speaks of "young people," but I believe adult education should be included. It is time people in the cities should be learning how to grow their own food and getting out of the cities. They need to learn gardening and get other practical courses.)

● We would like "feedback" or your ideas—should another Madison type school be established, and where? Curriculum? Your support? Write or call Charles Gallimore, Box 621, Church Hill, TN. 37640 (Tel. 615-357-3818). Also write or call the alumni office — see back page for address and telephone.

### AN OUTSTANDING COLLEGE

#### A DISTINCTIVE PROGRAM

THE MISSION OF MADISON COLLEGE is to train mature young men and women to go forth and to establish themselves in some form of sustaining endeavor that will contribute to the welfare of mankind — physically, mentally, and spiritually.

(Quoted from back of a small M.C. Notebook.)

#### QUOTE FROM E. G. WHITE

Written long ago  
but so applicable today.

● "The signs of the times give evidence . . . that the day of the Lord is at hand. The daily papers are full of indications of an intense conflict in the future. Bold robberies are of frequent occurrence. Strikes are common. Thefts and murders are committed on every hand. Men possessed by demons are taking the lives of men, women, and little children. All these things testify that the Lord's coming is near." *Prophets and Kings*, P. 717.

**Mary Ann (Voss) Mitchell**  
Sent Scrapbook for Heritage House

Last year MARY ANN MITCHELL (N '42) sent an interesting scrapbook with many pictures, clippings, and memorabilia of her days at Madison. It was viewed by many who came to Homecoming and afterwards, and has a valued place, along with other scrapbooks in the Heritage House. Mary Ann wrote as follows:

"I was so impressed with the 1942 Homecoming and class reunion, and had such a lovely visit with many.... I am sending my scrapbook to put in your reception room for the Class of 1943 to see, and of course anyone else."

● BERNARD BOWEN brought a large number of back numbers of the SURVEY, Madison Hospital Pulse, The Madisonian, Newspaper and other clippings. Included was a page clipping from the Nashville Tennessean Magazine, titled "Madison's Swap." (Can you guess what the "swap" was? The subtitle of the article reveals the answer: "50 years of bartering work for learning have built a Nashville College into a \$1,500,000 institution, debt-free and growing." Pictured were four students stepping briskly along, going to work—Barbara Meinardus of New Jersey; Otis Detamore, with garden tool in hand; Martha Tinnon (Berger) in Nurse's uniform; and Ernest Plata in lab uniform.

● Also pictured were Madison College Founders in front of the old original sanitarium in 1910: P. T. Magan, Nellie Druillard, E. A. Sutherland, Ellen G. White, two of her sons (W. C. White and Edson White), also three of her secretaries C. C. Crisler, Minnie Hawkins and Sarah McInterfer.

### CAMPUS VISITORS

(Following are names of some campus visitors since last reported. Doubtless there are others that we missed.)

● FLORA (JONES) VALLORE of Knox, IN., stopped by briefly on her way through Madison. She was a student at Madison Academy in 1929 to 1933. While here she and Miss Wheeler started the "Family Exchange," an early version of Dorcas. For many years Flora has been prominent in Community Services work in her church where she is director. Viola Carlson, retired M.C. nurse is one of the Dorcas leaders also.

● Elder and Mrs. John Mathews of Mobile, AL., and Elder and Mrs. Kenneth Mathews of Montgomery, AL, visited their aunt and sister, Dorothy.

● Dr. and Mrs. ADRIAN WRIGHT of Tampa, FL.; Charles and Alice Webster, of Newport, KY.; Mr. and Mrs. Bruce Collins and Missy of Cedar Lake, MI.; Gerard and Judy Griffin of Hancock, M.D.; Michael Butler of Country Life Restaurant, Nashville, BOB and PAT SILVER, of Collegedale, were other visitors.

● OTTO and ARTINE KINGSFIELD and other relatives were here in connection with the funeral of E. E. Schlenker.

### Heritage House Visitors

● ED BISALSKI '46 of Bancroft, Mich., visited his son Hampton and spent some time in the Heritage House looking up the story of E. A. and Sally Sutherland's 50th wedding anniversary. It was a grand occasion, with Ed as program chairman. We are interested to find pictures and newspaper clippings. A telephone hookup was set up in front of the Sutherland house and people called in from all over. (Ed says he prays daily for M.C. to reopen, and believes it will.)

● Mr. and Mrs. BILL HOWARD '58, of Loveland, Colo., visited the Heritage House.

● Mr. and Mrs. LARRY SUFFICOOL, of Troutdale, OK., visited their friends, the Ben Brosts of Portland, TN., and also saw the Heritage House. Mrs. Sufficool is the former Norma Kiger (N '43).

● HENRY KNAPP '50 called at the editor's apartment briefly. His wife PAULINE BURKS '41 was also on campus but touring the hospital at the time. Sorry not to see her. The Knapps live in Milwaukie, OR.

● While in California at the Retirees Convention this editor met Henry Knapp's brother Robert Knapp and wife Marion. They have a home and citrus orchard on a few acres in Riverside, CA. Robert is a tree surgeon. Marion is a graduate nurse from M.C., semi-retired. They gave me a warm reception at their place. Their daughter Mary gave me a ride over to Loma Linda.

Leslie V. Morris  
Riverside, CA.

Just a little up-date on our family. Our oldest daughter Mary, who had polio, is with us, also her two daughters, Theresa, 11, and Julia, 9. She is working in the special education department on the La Sierra campus. The two girls are in church school.

David works in maintenance at Loma Linda Foods. He has his commercial pilot's license, his ham radio license, is a member of the Riverside Astronomical Society, and lives in Loma Linda, commuting every day to Riverside.

Sharon finally obtained her RN, passing her State Board exams on the first try. She works from 3 to 11 p.m. in the Loma Linda Medical Center. She has a daughter, Christina, 5, and lives in an apartment near the hospital.

My wife Doris still works in the insurance division of the Southeastern California Conference office, and I am still working as a chemist at Loma Linda Foods. The Lord has greatly blessed us and we all enjoy good health and adequate living conditions.

Thought you might enjoy these issues of Vox Collegium to add to your displays there.

● Leslie Morris gave us a valuable contribution for the Heritage House in sending the first six issues of the mimeographed student paper, Vox Collegium (Volume I, Numbers 1-5, January to April 1942). We looked in vain for name of editor. Only clues are initials B.A.M. on Vol. I, No. 1, and M.K. on Vol. I, No. 6. Please Class of '42, please let us know who the editor was.

### Olga Speers to be Included in Book, Personalities of America

Olga Burdick Speers sent a full-page newspaper clipping from The Daily Ardmore of Sept. 6, 1983, which included a picture of herself and her 93-year-old mother, Clara Burdick. The story was titled "Olga's Way."

After Olga graduated from M.C. in 1941, majoring in Nutrition and Dietetics she worked for a time as director of food service at Ardmore Hospital. The patients liked her whole wheat bread. "Word spread about Olga's homemade bread, and we began getting requests from the community for special orders." One of her customers was Ralph Speers, who later became her husband. She quit her hospital job. She and Ralph went into baking and a health foods business full time. He died in 1971. A few years later her mother came to live with her.

The store became a meeting place for both customers and friends. People come and go to buy, to talk, to get advice on a healthful diet.

The story of her country store came to the attention of Editor Mills of the book Personalities of America, and he wrote her as follows.

"Your name has been recommended to the Institute's Governing Board of Editors for biographical inclusion in the third edition of Personalities of America. This recommendation was brought forward by our Research Division after their review of the enclosed news article. Personalities of America recognizes thousands of outstanding Americans in various fields of endeavor. Each year, a copy of the volume is placed in the Library of Congress and in all state libraries throughout the United States. Personalities of America has been nationally acclaimed a valuable research document for business leaders, genealogists, biographers, historians, librarians, and journalists."

### Can You Help?

● Can you help us acquire one or more extra copies of the Golden Anniversary Album (1904-1954), either as a gift, or at a price? We are not interested in obtaining these for individuals, but for libraries, institutions, etc.

● Can you help us get one or more copies of Louis A. Hansen's book, From So Small a Dream, either as a gift, or at a price? Published in 1968 by the S.P.A., it is now out of print. It gives a rich, interesting history of the self-supporting work in the South, and portrays its great influence on the educational and medical work.

● Madison—God's Beautiful Farm, The E. A. Sutherland Story, is out of print. (We managed to buy up a few copies. A copy of this book by Dr. Ira Gish was given to each A.S.I. member who attended the A.S.I. convention at P.U.C., Angwin, CA., in 1982, and this really cut down on the supply.)

● Does anyone have a copy to donate or sell of The Invincible Irishman (an abbreviated version of the life story of Percy T. Magan.)?

## The Golden Anniversary Album

We were especially pleased to acquire another copy of the Golden Anniversary Album, of which we have very few, from the personal effects of Jeanette Segó.

Ever so often we are asked about the possibilities of having this book reprinted, and we are interested. How about you? Our idea would be a paper back cover (to save expense); to add ten more years of graduation classes (1955-1964); also include people who didn't graduate.)

At times someone tells us his picture was omitted in a class because of being drafted into war or other reasons, and these could be included. Please do tell us of your interest.

### "Miracles Happen Every Day"

New Book in Self-Supporting Work

A new book by former G. C. president, Robert H. Pierson, is titled *Miracles Happen Every Day* — a story of self-supporting workers (Published by Pacific Press in 1983 but printed by Mountain Missionary Press, Harrisonville, N.H. 03450). Among the institutions covered are Wildwood, Little Creek, Laurelbrook, Yuchi Press, Stone Cave, Living Springs, Fletcher, Castle Valley, Eden Valley, Pine Forest, and several overseas, and of course "Madison, the Mother of Them All."

At the end of the ten-page chapter in Madison the author answers a question after asked, —"Why did Madison College close?" He quoted six contributing factors by Ralph Davidson, former M.C. president. To these this editor could add, loss of accreditation for the nursing, program, lack of vision and support by the local and union conference. Others named add other reasons.

Near the end of the chapter note what Elder Pierson says: "Still many declare with fervor, 'Madison will live again.' Only a few days ago a letter came to my desk outlining a plan to launch a new 'Sutherland College' where the philosophy and traditions of Madison might once again pervade the classrooms and the campus of a new junior college."

## LETTERS

Oscar L. Pembroke '26  
Hot Springs, Ark.

Thank you for the picture card of the old Sanitarium. That is a real treasure to me.

You are doing a great work to keep the Madison folks in touch with each other and the changes that have had to take place. I have always felt that it was wrong the way they closed the college. I think that it was unnecessary to close it. May the Lord continue to bless you in your work.

Alma Putnam, Lancaster, CA

My husband, Harold Putnam, went to school at Madison in 1918 due to the fact his cousin Gladys Robinson was going to school there. Lew Wallace, Harvey Bean, and Robert Shepley were his roommates. All three roommates have passed away. . . .

Madison started a vegetarian cafeteria and treatment rooms at Louisville, Ky., in 1921. J. T. Wheeler and wife Florence and her sisters, Helen and Phoebe Hackworth, Elizabeth Barnes, Harvey Bean, and Roy Hunter all worked together there.

I had just joined the Adventist Church after learning about the state of the dead. It was such a relief to me as my mother had died. Phoebe and Helen were very kind to me. I thought anyone that came from Madison was an angel and I wanted to go and take up nursing. But I had to have an appendectomy and that took all my money. So they asked me to join them.

Harold came from Madison to visit, and he decided to stay and work there 1921-2. In the meantime we were married and since Harold's folks were in Lawrenceburg, TN., we went to help them with the farm and sanitarium that Madison had started there.

Harold's sister Violette was teaching school. Her husband Elmer Willie was injured seriously and died. Violette decided to go to Madison to take up Nursing. She had one child at that time so Harold's folks moved to Madison too, along with Dale and Lucille. We went back to Louisville. The cafeteria and treatment rooms had moved to Pewee Valley, Ky. This was also where Phoebe and Helen's sister Fern and her husband Bill Hampton were living.

Harold and I went back to Madison in 1925. We had two children. In 1926 I became with child and Miss DeGraw said we had better leave. In 1931 Harold's dad told us of some property that Madison had been given, along with a grist mill, in Dahlonga, GA. They wanted someone to oversee it. We were there four years, then Harold had a chance to do more nursing for a Mr. Thum who was visiting in Tennessee. Harold's brother, Dr. Dale Putnam and wife, are now living in Hendersonville, N.C. His sister Lucille married Dr. Kenneth Mathiesen and they live at Bryson, N.C. His sister, Violette Willie, passed away in 1964. . . .

We had four boys. The oldest, Edward, is 60 and lives at Salmon, Idaho. Harold Jr., lives in Tecumseh, NE. He has his own business there — a garage and filling station. Donald lives here in Lancaster. He is a builder. Our youngest boy, Charles, works in the sheriff's department. He has been there over 20 years. We also have a daughter who lives in Keene, TX. with her family. . . .

We had started a health food store and bakery the last of 1959 but we were just too early for health food stores. The health bakery did well but no one knew how to bake with unbleached flour, and it got to be too much baking and delivering. . . . We love baking and I love quilting.

Nellie (Peck) Price 1934  
Ft. Lupton, Colo.

Thank you for the SURVEY. As you know from our phone conversation I no longer affiliate with the S.D.A. church, but do have memories of my days there. It was a time when I followed what I had been taught and did not think for myself.

Dalline (Colvin) Devlin  
Corrales, N.M.

Dalline Devlin wrote in answer to our inquiry for an update on herself, husband Winfield ("Skip"), and children, Dalline, named after her father Dallas Colvin, had nicely typed her letter and gave the information we needed — all greatly appreciated.

Skip and Dalline (Colvin) Devlin have lived in Corrales, N.M., (a suburb of Albuquerque) for over 12 years. Dalline returned to college (East Texas Baptist University) for her degree in English (magna cum laude).

After working at Sandia View Academy in Corrales for four years (Dalline teaching English and Piano, Skip in maintenance and grounds), Skip went into highway work, where he is now a construction superintendent; and Dalline went back to work for Civil Service (Kirtland Air Force Base), where she is now an editor.

Skip and Dalline have four children: Lisa Downey, (SAC '77; BS in Med. Tech., cum laude), lives in Ukiah, CA., with husband Mark and son David. Skip, Jr., who also attended SAC, is a professional musician based in Dallas, TX. Nora Alice Scoby, is a nuclear engineering graduate of the University of New Mexico, living in Midland, TX, with husband Greg, also a UNM Engineer; and Lorraine (18), a senior at Cibola High school.

• Skip's father and brother Bob are living in Keene, TX.

Ann VanArsdale Hayward '46  
Dayton, Ohio

Dear Mable and My Madison Friends: I'd love to be with you this alumni weekend but am just welcoming a new granddaughter, so am needed with my youngest daughter, Becky, in Atlanta.

My son Tom is pursuing another degree so will be with me this next school year attending Kettering College of Medical Arts. (His wife died in December. . . .) My daughter Diane has returned to college and is studying nursing.

I have accepted some new work responsibilities. Am now personnel coordinator for Sycamore Hospital, a satellite hospital of Kettering (120 beds and are now adding 70 more.)

I'm definitely planning to attend Homecoming next year. Special greetings to my friends Stella and Bob, and Vel.

Mary (Mowry) Wilson  
Leesburg, Fla.

I am enclosing a check for my membership fee in Madison Industries.

I enjoy and look forward to getting the SURVEY. I thank God for preserving your health and giving you strength to carry on this great work.

I'm so glad Madison is going ahead with plans to provide farm work for its students. Our prayers are with you. May God richly bless you and the work at Madison.

Hallie L. Thomas '42, Okeechobee, FL.

Just a note to say I am still in the land of the living and enjoying fairly good health. Not traveling so fast, but I get most of what I have to do done on time.

I live alone, have a home on four lots which keeps me moving. Have a garden, chickens, fruit trees, citrus, banana, pineapple, etc.

Seems I am as busy now as when I was working out, but I take on too many jobs. Am treasurer of our church, do blood work and blood pressures on our van, teach classes for Red Cross and do blood pressures, as well, once a month for them. I am also taking upholstery and floral designing through the Junior College here. Plan to start care of house plants this next week through extension office. I have wanted to take these classes for years but have always been on call or working.

I have told you about me; now I want to talk about you and the wonderful work you have been doing at Madison and for us who have such fond memories of Madison. I love you for your faithfulness and wish I were near so I could help if ever I qualified.

Lucy (DePas) Zetko (N '49)  
Crestwood, Ky.

(Lucy Zetko wrote a year ago but we failed to get her letter in.)

How we wish we could get to Homecoming, but we can't make it. Would so much like to be there this year because I went to school with Ken Livesay at Broadview Academy, I feel sure.

In July I'll start my 17th year at Pleasant Grove Hospitals as 11-7 supervisor. Joe is retired, but is still working some at carpentry and does most of the gardening. He's very well preserved for his 70 years.

We, too, really appreciate the SURVEY. We pray it will always be published. Thanks for your most important work. I'm sure all Madisonites really do appreciate your faithfulness.

Mary Catherine Noble  
Johnson, KS.

Miss Mary Noble, former director of Physical Therapy at Madison Hospital, wrote as follows: "I have been here since April, self employed as a contract physical therapist for three county hospitals in Southwest Kansas. They have had only minimal physical therapy previous to my arrival.

One can go 80 miles East, South, or West to find an Adventist church, but there are none closer. So the Lord may reveal some people who are interested in studying God's Word.

John W. James, Bandon, OR.

(John is one of the James children who were students at Madison in the late twenties. He wrote.)

"I have bought property here in Bandon, Ore. to be with my widowed sister, Maudine Waggoner. I went to Madison in the fall of 1927 and was there for five years (good years) and gave my best to my work. The last year I was there I ran the clinical laboratory alone. Enjoyed all of it. . . . Hope you can find good help in your work before long."

Turnbolls to Return to Africa  
Gerald & Althea Turnbull '57  
Willowdale, Ontario, Canada

My wife and I enjoy receiving the MADISON SURVEY very much and being able to catch up with news from our Alma Mater. Althea has been working for some years now for several Adventist doctors in the Toronto area. I have been responsible for Nursing Service at North York Branson Hospital for the past 12 years.

We have decided to go back to the mission field where we feel we would like to spend more time in our work before retirement. We will be spending a month at Loma Linda for Mission Institute before leaving for Southern Africa on New Year's Day 1984. We will be joining the staff of the Maluti Adventist Hospital in Lesotho, Southern Africa.

There my wife Althea will be in charge of the school of nursing where I understand they have an L.P.N., R.N., and B.S. program in nursing. My task will be to try and build up the nursing service program in the hospital plus other responsibilities.

May the Lord continue to bless in the fine work you are doing with the SURVEY.

● CHRISTMAS CARDS and LETTERS are coming in. One from Wilma Gill away over in Africa; one from Geraldine Zimmerman of St.

Louis; and one from Dorothy Aikman. The latter said that she and husband James have moved from Collegedale to Lincoln, NE., where he is factory superintendent of the Christian Record Braille Foundation. Dorothy is office manager of the Smith Ridge Dental Clinic.

Doubtless there will be other cards and letters as the days go by. If you have a duplicated letter for the year 1983, send us one; also wedding and anniversary announcements, etc.

## OBITUARIES

Mary Eads (Gammon) Burkin

Mary Eads (Gammon) Burkin attended M.C. 1951-4, taking the nursing course. She was a new convert as the result of a Mr. and Mrs. James, school teachers at the Fatherland Street Church in Nashville. She came to Madison as a divorcee and with a 3-year-old son, Ray, and a burning desire to win her brothers, sister, and other loved ones to the truths that she loved so much. This affected and interrupted her studies on many occasions.

In 1954 she left Madison and went to Detroit to be near her father, but only stayed there for about a year. She then went to W.M.C. and resumed her nursing course, graduating with a B.S. in nursing. While there she met Robert Burkin, a nurse from Canada. They were married and had two children—Mary Ann and Andrew. Robert adopted Mary's son Ray, and he became David Burkin.

Around 1964 the Burkins moved to Willowdale, Ontario, Canada. Robert worked in emergency room and Mary worked in another area in Branson Hospital. Domestic problems ensued and they moved to Ann Arbor, MI. The marriage dissolved. Mary went back to school and earned her master's degree from the University of Michigan on Environmental Health. In 1975 she received a

News Note or Remarks:

● In our September SURVEY we gave the address of Hartland Institute as Locust Dale, Va., but since have learned that it did not work out to use that address for mailing out their paper, *Breakthrough*. The correct address is Box 1, Rapidan, Va. 22733.

call to W.W.C. to teach Environmental Control and Safety. She was so happy to be in God's work.

In March, 1975, Mary's sister Betty and two teenage children came to live in the basement apartment. Betty's husband was in a mental institution, incurably ill. On May 20, 1975, Betty moved out. The next day her husband was let out and came to Mary's home looking for his wife. He shot Mary and she lived only 32 hours, Andrew was killed instantly, Mary Ann survived by a miracle; David was shot and blinded in the left eye. They were all shot in the head. David and Mary Ann are still in Walla Walla. An SDA family is caring for Mary Ann.

(Excerpts of letters to Clara Clark from Mary and Robert Burkin.

### AUDREY E. KING

(Miss Hazel King sent a very well written obituary of her sister Audrey, which we appreciate. She wrote the following personal note.)

"We lived 27 years at Madison and came to know many there through the years when Madison was small but very active. So we always read the SURVEY with a high degree of interest. We both worked in the printshop, and at different times, and did whatever was needed. The work was an education as well as the school subjects."

Audrey King was born in Portland, TN., Oct. 23, 1914, and died in Meridian, Miss., Sept. 18, 1983.

RETURN POSTAGE GUARANTEED

She began her education in the first grade at Madison, graduated from the nursing course, then received a B.S. degree from the college in 1937. Upon her graduation she was placed in charge of the surgical building at the hospital where she worked for 9 years. She was then made assistant to Mrs. E. R. Moore, nursing director of Madison S-H.

In 1946 with her parents, Mr. and Mrs. R. B. King, she moved to Pine Forest Academy to take charge of the small sanitarium there. After 3 years the family moved to a country place outside Meridian. During the 34 years of residence there she was director of nurses at Rush Memorial Hospital for nine years.

At a change in personnel at East Mississippi State Hospital she was invited to be director of nursing service. At the time of her retirement in 1978 she had served in this position for over 21 years.

Audrey was active in the state and local Nurses' Association, first as treasurer and then as president of the district for a number of years.

She was a member of the Meridian, MS. S.D.A. Church for 35 years where she served as organist. Surviving is her sister, Hazel King, of Meridian.

### BEA ANNA BROWN

Mrs. Bea Anna Brown was born in Albany, Mo. in 1896 and died June 14, 1983, in Portland, Ore.

Among the survivors is her daughter, Rae Anna Brown, of Portland, Ore., who graduated from anesthesia here in 1964.

### Virginia Gregarius

Virginia, wife of Fred Gregarius '29 was born July 5, 1911 at Oakland, CA., and died, March 19, 1983 at Stockton, CA. She is survived by her husband Fred of Lodi, CA., and son Karl, an M.D. in Balboa Island, CA.

### EDWIN CUNNINGHAM

(We are indebted to Mrs. Louise Cunningham for this obituary of her husband, Edwin. The Cunninghams were great friends of Vera (Dortch) Honeycutt while here at Madison. Ed.)

Edwin Cunningham attended Madison College 1940-2 when he was called to war. He served in England with the U.S. Army Air Force as a radar technician. At Madison he met his wife Louise Gavaerts. They were married by Elder Howard E. McClure in Madison, Wis. in 1943.

After the war he went to work for the prime contractors — A.E.C. at Hanford, Wash., until he retired. He settled in Santa Barbara, CA., until his death Sept. 21, 1983, at age 71.

Edwin is survived by his wife, Louise, and a married daughter, Phyllis Coates, a teacher, living in Keenewick, Wash.

### SARAH (Kendall) CRUICKSHANK

Sarah Cruickshank was born in 1916 in Kensett, AR., and passed away suddenly at home, Sept. 19, 1983, in Spotswood, N.J. She was the daughter of the late Charles L. Kendall, who came from Arkansas to Madison in 1906. Prof. Kendall headed up the Agricultural work here for many years.

Sarah met Stanley E. Cruickshank on the Madison Campus while they were taking pre-med. They were later married in New Jersey in 1938.

They had four children. Surviving are: daughter Sandra C. Rovira of Spotswood, N.J. and son Kendall Cruickshank of California; a sister, Edna Kendall Manzano of Madison, TN, and two brothers — Dr. Cyrus Kendall of Hendersonville, TN. and Dr. John Kendall of Clinton, N.C.

She was a very outgoing, friendly person and deeply loved by all who knew her.

(Obituary information furnished by Sarah's sister-in-law, Olive Cruickshank Snapp of Madison, TN.)

### GEORGE NEWTON FULLER

(Information furnished from a newspaper clipping and a letter by Myrtle Fuller.)

George N. Fuller, 84, a well known Collegedale businessman and executive, died at his residence in Ooltewah, TN., July 14, 1983.

He founded the Fuller State Farm Insurance Agency in Collegedale 50 years ago, and also founded and was the first president of the Collegedale Credit Union. He was a native of Hamilton, Ontario, Canada, but lived in the Collegedale area most of his life. He had served Southern Junior College as an accountant and assistant business manager. He had also served as Collegedale postmaster from 1930 until his retirement in 1965.

Survivors include his wife, Myrtle (West) Fuller; daughter, Mrs. Georgene Meyer, Collegedale; four sons, Dr. George V. Fuller, Warner Robbins, GA.; Dr. Forrest Fuller, Bonita, CA.; Frederick W. Fuller, Collegedale, and Glen Fuller. Ooltewah; 21 grandchildren and 29 great-grandchildren.

State Farm Insurance sent 12 of their agents as honorary pallbearers. Mrs. Fuller's brother (Don West) played his violin and a granddaughter sang at the funeral.

George spent two years at Madison and one at Fountain Head, now Highland, then was called to Collegedale. Dr. Sutherland insisted George come to assist Miss DeGraw in the business office there at Madison. We were there two years, but Collegedale's President Klooster made two trips to Madison and persuaded George to return.

● From the SURVEY index we learned that George Fuller built the first of the teacher cottages on Madison campus in 1928.
