NO. 4

DR. E.A. Sutherland SPEAKS

Cont. from June, 1992.

We had to use kerosene for light. We had a very primitive place, but the workers were very much interested and the first medical director that we had at that little sanitarium, that little baby face, was Dr. Newton Evans, the man that you all loved so much.

Dr. Magan and I took a hold to build that place. I went out and raised the money while Magan did the building and we got the building up and then Dr. Evans said to us, one day, "I've got to go to Loma Linda. The Lord's calling me over there. I must teach." And he said, to me that I should go to medical school.

I had tried to go to medical school and he knew that. He said, "If you'll go down to take the medical course I'll stay here with you until you get through with it." And I said, "Well, Magan is the one who ought to do that, he's married to a doctor." So we tried to get Magan to go.

Magan's wife said, "No, I don't want Percy to take the medical course, it's too hard, and he's a minister, and I don't want him to step down from the ministry and the educational work, down to the level of a doctor." Well, you see she was tired, worn out. She'd been a very faithful, very wonderful doctor in the Battle Creek College. When she married Percy, he knew how to make the nest very soft and pleas-

MADISON COLLEGE HOMECOMING 1993

by MCA President, Jim Culpepper

Plans are already underway for the 1993 Homecoming of Madison College graduates and those who attended Madison College.

Homecoming days this year will be June 18-21. This avoids conflict with the retirees convention, allowing all an opportunity to see friends and revisit the Madison campus.

The honor classes this year are 1926, 1927, 1936, 1937, 1946, 1947, 1956, 1957, 1966, and 1967. Also, there are a large number who attended in 1963-64 about the time Madison College closed, who did not have the opportunity to graduate. We want you to come and be honored with other classes.

Homecoming will be more fun and enjoyable when there are more attending.

Each of you reading this article have "Madison" friends, tell them. Set the weekend of June 19 aside now and plan to be with us and your friends on the Madison Campus the weekend of June 18, 19, and 20.

Also, as you may know Miss Dorothy Mathews, beloved teacher of so many students over the years, fell and broke her leg recently. We would like all of her students to

EXPEDITION TO MIDDLE EAST

The SURVEY received this report from Ron Wyatt, Anes'64

Nashvillian Ron Wyatt is recently returned from his 40th-plus expedition to Turkey and Egypt.

In 1987 the site near Dogubeyazit, Turkey was dedicated by the Turkish government as the remains of Noah's Ark.

Ron received permission in 1991 to excavate the remains and has continued his scientific research of the site.

The excavation had to be put on hold when he and his associates were taken hostage, by the Kurdish PKK terrorists, which was reported in the March'92 SURVEY. The tensions of the region have not abated in this year of 1992.

The first night of this last trip, 5 terrorists were killed in a skirmish near the hotel, where Ron and his team were staying. They moved to a different hotel the next night, and 9 more were killed nearby.

Ron and his team were able to work at the site of the remains of the ark in relative safety. They conducted a molecular frequency generator survey of the structural remains, of the ship, and were able to lay out a tape survey which showed the internal structure. This survey verified the same type survey which was conducted in 1985. The team video-taped the entire procedure and photographed every

DR. E.A. SUTHERLAND SPEAKS, *Continued*

ant for her, and she couldn't imagine how she could be happy with Percy out doing all the things she had to do when she was in medical work.

So then it fell back on me again and I finally told Dr. Evans that I would go matriculate if he would stay by me. And I did.

When Dr. Magan found that I had matriculated he got stirred up and said "Ed, you can't go ahead of me on this, I'll drag along with you." and I said, "Two will be a great deal better than one." So we broke down into it together and we went through the thing, I'll not tell you anymore about it, except this "if heaven was a medical school run on the same plan that the medical school was run that I attended and hell was a place where you would be burned up and the old women shot down, I wouldn't hesitate to say "Let me go to hell as quick as possible."

The reason for this attitude was this, Magan and I were middle aged men and we had some experience in life and they put us through so many things that it just seemed it was too hard and so much about it that was very difficult. That was our estimation of the medical course, not of the medical profession, you must understand. We felt very different about that. But we got through and then our plan was to work together. We'd been together for 28 years as partners.

Now then we had another disappointment. Dr. Evans went out there and called for Magan. The brethren asked him to go. Magan refused, he wouldn't come out. Said he was gonna stay right at Madison. And when we got through with the medical course in 1914, I said to Magan, "I'm going out and have a talk with Sister White. I'm going to tell Sister White some things, undoubtedly she doesn't know anything about, in running a medical school."

During the four years we were in medical school the American

Medical Association was trimming down the number of colleges. They had already cut out more than 100 medical colleges, threw them out. And others they put in such a hard place that they dropped out later on and they intended to see that only one medical college should exist in a state, unless it was a university and a private medical school then they would let two, but they would not allow, as a rule two medical schools in the same state. They intended to bring the standard up and I want to say that they did because there was a great spirit of cheap mercenary business in medical schools. They'd even sell the plumbing and things were in horrible shape. So they did a fine piece of cleansing.

I went out and told Sister White, she invited me to come out, and I stayed one month in her home as a guest, slept there, ate my meals there. And I said, "Sister White, it can't be done." And I told her why.

To be Continued.

MCA HOMECOMING, 1993

Continued

come to this Homecoming and honor her. We feel it a privilege that she is with us in our community. Dorothy is the one who gets a call when there is a need for help. She was especially helpful to Mable Towery in her last years of life.

Why not cheer Dorothy up with a get well card and a note. Her address is: Box 6162, Madison, TN 37116.

EXPEDITION TO MIDDLE EAST *Cont.*

segment of the work to provide absolute evidence of the reliability of the procedure. Also, 4 types of metal detection devices, along with interface radar were used, and preliminary radar scan investigations were begun in one of several empty chambers located within the ship.

The next stop on Ron's expedition was Saqqara, Egypt. Ron photographed and documented the grain

storage bins built by Joseph, of the Bible, during the 7 years of plenty. The bins are complete with the evidence of the grains of corn which were stored there. The bins also have various inscriptions which verify the events of the time of Joseph.

Ron and his team were heading to the Red Sea Crossing by taxi when the big earthquake occurred, but they were unharmed.

It is Ron's belief that God has preserved the evidences of His interventions in the affairs of mankind so that they can be revealed at this final time in history.

Today as never before, God's truth will be able to go to the entire world almost simultaneously with TV satellites capable of transmitting around the world in what Ron believes will be the fulfillment of Jeremiah 16:21.

To date, Ron has documented Noah's Ark, the Red Sea Crossing site, how the Pyramids were built, (the first pyramid was built by Joseph), the real Mt. Sinai in Saudi Arabia, Sodom and Gomorrah, and more. Ron has recently begun publishing his findings after 15 years research and field trips. Inquiries may be sent to Ron Wyatt, PO Box 5931, Madison, TN 37116.

MEMORIES of Frances Dittes about Madison

When I was growing up in the 50's & 60's, our family used to visit Frances Dittes often. She was in the twilight of her teaching career and liked to look back on the history of Madison, of which she had been part of since 1910.

She especially liked to talk about Dr. E.A. Sutherland and his long-term vision. One of her favorite stories was why he approved diverting money from Mrs. Lida Scott's personal fortune intended for Madison to Loma Linda when the medical school there was struggling.

"Not everyone agreed with him for doing that," she said. "Mrs. Druil-

lard would tell him, "Ed, don't give it all away."

But Sutherland saw things differently. "Well, yes, we need it here," he said, "but we also need a medical school out there. Our boys need a school to go on to, and finish their education. And if they come back doctors, they can do a lot more for us."

He lived to see that very thing happen. Several of Madison's students did go on to Loma Linda and they came back doctors in various Middle Tennessee communities.

Among them were my father, Dr. Albert Dittes, and Dr. Reuben Johnson in Portland, Drs. William Bryan and Russell Myers in Woodbury, Dr. Julius Dietrich in McMinnville, Dr. Roy Bowes in Goodlettsville, Drs. Joe Sutherland and Cyrus Kendall in Madison just to name a few.

Frances always marveled at the long-range vision of Sutherland, to see a medical school at Loma Linda as being part of Madison's success formula. "That's one reason why the Southern Union is one of the strongest unions in North America. Someone needs to write a book telling the story of Madison's contribution to it," she would say.

As the 50's turned into the 60's, things started going against Madison, and Aunt Frances felt the next generation to take command of the school lacked the spirit of self-sacrifice.

She said that when Sutherland stepped down as president, the school had \$150,000 in various Nashville banks. They used interest from this money to pay operating expenses, and it gave them financial stability. But she said the new president saw the money and gave the staff a salary increase. "Before long, that money was gone," I remember her saying.

Then when the 60's came, financial pressures forced the school to become part of the Southern Union Conference. She said one of the presidents told her one afternoon that he was unaccustomed to coming to the end of the month

without enough money to pay bills. That situation had forced him into making some phone calls to the Southern Union Conference office for cash.

"I told him he was very fortunate to have a place to go for money. There were times when we would come to the end of the month without money, and the only place we could go was to our knees." That meant the staff going without paychecks or just token payments.

When Madison College had to close, she felt sad but retired with great satisfaction in a job well done.

MEMORIES

by

Helen Rademann BS'34
Maywood, NJ

I think back with great pleasure to my student days in the midst of that strange era, the Great Depression. Tuition was \$1.50 per quarter hour, room rent about \$8 a month. I, the skinny big eater, couldn't keep my food bill down to one \$5 meal ticket a month as many other girls did. The laundry charged 2 cents to wash a bed sheet, but some students economized by washing theirs in the bathroom basin. I can still see the labor distributor's distress as he announced in chapel that, due to bad times, our wages would be cut from 10 cents an hour to 9 cents. There was even a short time when we went down to 8 cents.

Work hours were 6:30 a.m. to 12:30, Sunday-Friday, that included Christmas and other holidays, too, for many of us. The school year was nearly 12 months long, but in later years that system was converted to the conventional school year.

I arrived on campus without the least idea of how to do any kind of work. I started in the cannery and then went to the laundry, where I soon learned to iron shirts and nurses' uniforms properly. I liked those jobs, but hated my assignment of cleaning rooms in the sanitarium.

During the winter break there were "short courses" in practical

subjects. My favorite of all college classes was the short course in pruning and spraying. We pruned a lot of the orchard and grape vines, and on the day before Christmas we went to Ridgetop to prune their farm. Miraculously, I was allowed to go as the only girl in a group of male students and teachers.

I lived most of the time over the assembly hall. We had six girls in the wing over the library reading room. Since my cleaning job could be somewhat messy, I liked to take a shower before the afternoon classes, and this necessitated crossing the chapel porch to get to the basement showers, a rather conspicuous performance to the people going between the dining room and the sanitarium. I became known as the girl who took a bath every day.

The food at that time was very wholesome, but very plain. Almost every item in the cafeteria was 2 cents. A Methodist student said that her first meal on campus was breakfast and she didn't recognize a thing on the counter except the milk. For a while, no supper was served. One of the least appealing items was uncolored margarine. One day it appeared a nice yellow, which made us happy until a rumor got about that it was because some of the students had gone to town with the supply truck and on the way back had stood on the margarine, so they were compelled to conceal the damage by coloring it.

The commercial bakery made a fruit cracker with a ground raisin filling. Whenever a batch got burned or underdone or too much or two little salt, bags of it were sold to the students for 7 cents. Whenever a number of people were seen heading toward the store holding meal coupon books, it was a sign that fruit crackers were available.

Decorum was very strict. A serious offense was "conspicuous association"--meaning, for instance, that a young lady was eating lunch too often with the same young man. I had heard that "parlor dates" were allowed, for 10 minutes once a month, but I never knew of anybody

who had one. Sabbath services were Friday night vespers, Sabbath school and church, and Missionary Volunteer meetings to close the Sabbath. There were also Bible and health seminars which met Friday evening and early Sabbath morning. One session to learn how to give studies and one to practice giving them to each other.

Saturday night was the time for recreation, perhaps a film or a march. Private parties were allowed before work during the week. There was an ice cream freezer available and we saved milk from the cafeteria and sugar from the only possible source--leftovers from the sanitarium. It was a very rare occasion indeed to be allowed to leave the campus for a trip to Nashville. It required permission from the labor distributor, the dormitory preceptress and Mrs. Sutherland, and 3 girls had to go together as a safeguard from some suspected dangers of the big city.

I understand that all this changed considerably within a few years after my graduation. But I'm glad I knew Madison in those early days. The adventures in our tight little world provided me with happy times then and cherished memories throughout the years. I am deeply grateful for my experience at Madison, and for those whose sacrifices made the school possible.

I would like so much to have been present at Homecoming!

HELP

Please help us with addresses, for the names listed below. Thanks!

1926

Mrs. O.P. Baessler, J.E. Baker, Harriet Baker, Charles Band, Charles Beamer, Vergil Bonnette, W.S. Boynton, John Brasier, John Brewer, Gola Bryan, Helen Bumby, Raymond Burns, Lester Cago, C. ALUMNI

Thanks to all of you who sent in donations and wrote a note to put in the SURVEY. We appreciate your encouragement.

A special thanks to those who have written their memories for us to enjoy and for some of us to relive. We hope others will follow your example and write to the SURVEY about their memories.

**Edna (Kendall)
Manzano, S'26
Madison, TN**

I am 91 years old, but I still love Madison and all the wonderful things it stood for and did.

My folks came to Madison in the early days. I was about 8 or 10 years old and I'll love Madison and its principle as long as I live.

I shall miss Mable Towery very much. She was 6 months older than me, but oh what an influence she had. We will miss her.

**Leon R. Pleasants, S'26
Lynchburg, VA**

Leon notified the SURVEY that he has retired and left Arlington, VA. If you would like to write to him, his new address is 1100 Westchester Dr., Zip 24502.

Leon has many memories of the work he did on the Madison campus

in 1926.

(Please write your memories for the Memories column, in the SURVEY. We would also like to hear from anyone else with their memories of Madison. Let us know how it was in the good "ole" days).

**Mary A. Wilson, N'28
Hagerstown, MD**

I am enclosing my check. Please use it where the need is greatest.

I was saddened to hear the news of the passing of Mrs. Mable Towery. I want to express my deepest sympathy to all who labored together with her to strengthen and keep together our alumni. She will be greatly missed by all the alumni and all who knew her.

I personally thank you for all the hours of service you are giving to our alumni, Viola, and keeping our "family" together. Not many of us oldsters are still around.

**Elsie (Sanford)
Hamerly, N'29
Niland, CA**

I have moved from College Place, WA to Niland, CA. This is the "fountain of youth spa," where a good number of S.D.A. Senior citizens go for the Winter, but I will be making my home here, leaving only a couple of months in the hottest part of the summer. There are 4 of us left, now we will all be together.

**Gladys (Klein) Custer, N'31
Highland, CA**

I love to get the SURVEY. There are not many of my class left that I read about. I just lost my dearest friend, Ruth (Spurgeon) Baughman, N'28. She was like a sister to me. She was in her 2nd year of nursing when I first started nursing and we were close all through the years.

**Virginia Wyatt, N'33
Rockland, WI**

My check is enclosed. I really enjoy the SURVEY very much. I sure remember the days we spent at Madison. I went back and worked two times, after graduating in 1933. The first time I supervised in OB,

and the 2nd time in Surgery.

I wish I could have attended Homecoming. I talked on the phone with Theo Maddox, N'33 and Mae Keith) Warren, N'33. Mae and Vivian (Taylor) Hopp, N'33 were two of my very best friends.

My husband has been in the V.A. Hospital since Oct'91, and I live with my 2 dogs and cats.

Sorry to hear of Mable Towery's passing. She was a wonderful woman.

Beverly (Pruette)
Gregorious, M.D., BS'34
North Hollywood, CA

I was really hoping to come in June for Homecoming, but I have been sick. I am doing better, but not enough to travel.

I see patients 2 half days a week, and do some teaching of Residents in OB Gyn. My only child is a Pathologist at Einstein in New York City. She also teaches medical students, and got an award this year at their graduation for being voted the best teacher. This was the decision of the students. Hans, BS'39 my husband, was always adamant that she should take medicine, but she wasn't convinced. She had a Master's degree and worked as a therapist in a mental health clinic after she got married. In fact she had 2 Master's degrees. But, she finally decided she wanted to take medicine and did.

Hans has been dead for 14 years. I keep busy. I'm on the Church Board, a couple other Boards, the Pastoral Advisory council, the music and health committee, I am one of the S.S. Superintendents, and a few more things at our Glendale City SDA Church. At Loma Linda University I'm on the Board of Councillors, a Professor Emeritus, and a clinical professor, and active at the University of Southern California.

When I was at Madison I worked for Herbert White and Julius Gilbert White. Herbert's daughter, Kay grew up there, and has a health food store close to me, in Burbank, CA. Her husband Banney Matheson died recently.

I see Margaret (Rice) Badzick Stuart, a nurse anesthetist, who trained at Madison, and she is fine.

Wayne McFarland, M.D. S'34
Grand Terrace, CA

I along with my parents came to Madison in 1930-31. My father headed up the food industry and sales. My mother taught, along with Mrs. Sutherland, Mrs. Hall and W.E. Straw.

W.E. Straw, father of Leland Straw, was an outstanding teacher. He greatly influenced my life. Mrs. Sutherland and Mrs. Hall were wonderful women and teachers.

During my stay Elder Julius Gilbert White came to our campus. His illustrated health talks bore fruit later in my life in my own Better Living Health Evangelism series.

Dr. E.A. Sutherland and I worked together in the General Conference. I as a young fledgling learning from a great persuader. We helped to start the A.S.I.

I owe much to Madison. The work and study program, with a school, farm, and sanitarium is God's ideal. We can be thankful we went to such a school as Madison.

I have in the last year been to China twice and to Russia with Health Evangelism. Articles on these trips have appeared in the "REVIEW."

Marion, S'34 & Catherine
(Silvers), N'34 Dunn
Visalia, CA

Our check is enclosed, for the SURVEY.

We are keeping busy every day and plan a trip East, this fall. Thought it would be nice to see the Fall colors up in New England.

Every day it gets closer to the coming of the Lord, what a great day that will be.

It's nice to read about our classmates and folk we knew while there at Madison. The SURVEY is a great way to keep track.

Thank you for keeping the news coming.

Miriam Foreman, S'32-35
Hendersonville, NC

Enclosed is my donation. Madison is a very important place in my life--the buildings--the people I came in contact with are all important--one doesn't forget the memories and they don't fade away!

I did not get to graduate in 1935, due to the illness of my mother. I left Madison and stayed with her until May when I went to W.M.C. I graduated from there in 1940.

Ellen (Low)
Hammond, N'35
Mt. Vernon, OH

How I remember being a first year nursing student at Madison. The Girl's Cabin Court was completed, and the single female nurses were housed there. Each unit consisted of 2 rooms--a duplex. Each room had a small stove, to keep us warm. My roommate didn't know anymore about building a fire than I did, but we learned!

Across the enclosure was a gravel path which led to the bathroom and showers. I think the whole idea was to better prepare us for the inconveniences in life.

After my first year, my parents Marshall and Martha Low, joined the college teaching staff, and I lived with them on campus.

My last 15 years of nursing have been in the field of Public Health, and I have really enjoyed it. I have learned a lot about people, working in this field.

I've always been glad for the well rounded nurse's training which Madison made possible for so many.

"When we count happy memories, we cease to count years." I wish I could have been with you at the June Homecoming.

Viola Carleton, N'37
Spokane, WA

I hope enough money will come in to keep up the alumni association.

I have moved to Spokane now, so it will be a little harder to get to the Homecomings. I attended two years ago and enjoyed it very much.

Helen (Leslie) Mathis, N'38
Bradenton, FL

Enclosed is my check for renewal of the SURVEY which I thoroughly enjoy from cover to cover. It's been so long since I was there in school. There are very few of us left from the 1938 class. My mother, Bertha (Shilling) Leslie, N'12 was one of the first to sit for state boards in Tennessee. Dr. E.A. called her at Red Boiling Springs to come back to Nashville to sit for Boards in town. The county Court Clerk of Macon County had to send to Nashville to get a book for her to be registered in, they hadn't had RN's before that. My folks started treatment rooms and a small Sanitarium at Red Boiling Springs. Mrs. Scott, Dr. E.A., and the Bralliars were all frequent visitors. We lived in a 16 room house and had it full of patients all the time. We gave the people Battle Creek baths and used a vegetarian diet.

Since that time we have had a nursing Home here in Florida, now my folks are all gone. My sister Elaine Tucker, BS'35 used to live here beside me. Now they are all gone.

I retired in 1978. To keep from getting too lonely I go up to see Frances (Lausten) Thomas, N'38, of our class, who lives in Indiana on a farm. She keeps me busy making dill pickles and canning all the goodies on their farm. She is quite a farmer's wife and tries to make a farmer out of me. It's great fun making raspberry jam, picking blueberries and watermelons.

We all keep quite active in church work. I have a story hour for kids of the neighborhood and I am getting a branch SS going.

Fred Black, BS'39
Loma Linda, CA

Madison College is very special to my wife, Dorothy (Jones), BS'50 and me.

George G. Barrett, S'40
Copperhill, TN

The alumni association is the last vestige of Madison College. When

it's gone--and the last M.C. student has passed away, there will be nothing left of Madison College, not even a memory.

I read in an issue of Southern Tidings that "all they could do was sit idly by and watch the Library fall down--he never mentioned it was because of badly needed maintenance and care.

God chose the spot for Madison College to be built, but it was allowed to fall down.

My check is enclosed. Thank you, Viola, for all the work you do on behalf of the alumni association.

Jane (Turpin) Fuqua, S'40
Bakersville, NC

Enclosed is my check to help with expenses. Madison taught me a great deal and the people I met there influenced my life for the better.

Do you remember Mr. Walker and his rose garden? It was his pleasure to take to Miss DeGraw a perfect rose each day.

Thank you for keeping the memories of Madison more alive.

Arnold Johnson, S'39-41
Belton, TX

Even though I am paid up with my alumni and dues I am sending more because the alumni association is on hard times. Please accept this with my thanks for all your work, Viola, and keep the SURVEY going. The SURVEY has been the other tie that has bound Madisonites in their work to finish God's work. Your work is much appreciated.

Eleanore (Ross) Teel S'41
Phoenix, AZ

Enclosed please find my check. I really enjoy reading the SURVEY and cherish memories of Madison times and precious friendships started there. I was fortunate to find my husband at Madison and was happily married to Ivan Teel, N'40 until his death in 1976. We have 3 children, all married, and 5 grandchildren, ranging in years from 18 years to 16 months.

Len, N'41 and Bea (Bird) Parfitt

N'45 live nearby and we all attend the same church on Sabbath. I still correspond with Lil (Fleming) Reid, N'41 Dorothy (Jones), BS'40 and Fred Black, and Viola (Salsgiver), BS'45 & Kenny, BS'45 Knight.

Lil and I have enjoyed traveling together to over 30 countries and have visited many mission stations, clinics, and schools around the globe.

I am grateful for the education I received at Madison in 1940-42, and I realize what a privilege it was to be there--hard work and all.

Norma (Bond) Dunbar, N'43
Lakehead, CA

Our class reunion at Madison in June 1991 was such a wonderful experience. It was such fun to see old familiar faces and share life stories.

The sad part of our visit was the change in the campus, the disappearance of all the beautiful buildings, the farm, etc. It would have been nice to remember our Alma Mater as we left it in 1943.

Our children all live in the Redding, CA area and we feel very fortunate to have a close knit family

Corrine (Friend)
Maxwell, N'43
Dayton, OH

We had a big garden this year. We had showers about every other day which was good for the garden.

We went West last November, parked on the desert in California near Yuma, Arizona, and stayed until the middle of March. On our way home we stopped at Bransom, MO, the new Nashville, and looked around. We went to Osage beach, the Lake of the Ozark country. It was all beautiful country.

Mabel (Robertson)
Parker N'44
Inverness, FL

Wish we could have come to Homecoming in June but, Cecil, N'42, BS'45 is not well, and I had to give up driving, because of my eyes. I can see very little now. We feel that God has been good, however.

Margaret (Nota) Eley S'44-47
Wadsworth, OH

Madison College was a refuge for me while I was recuperating from a nervous breakdown caused by the malpractice of a doctor who prescribed a deadly medication for a simple ailment. The nearly dead condition that I experienced led me to the Lord, to plead for life.

Since I was financially in need in 1944 when I came to Madison, it was an answer to prayer and more--to begin my Christian experience. I was baptized there, also.

The basic principles of Christian education and physical work (self-supporting) is certainly God's will.

After 3 years of class work at Madison College I transferred to Peabody and graduated. I worked as a missionary dietitian for about 6 years. Then I changed to Home Instruction for the Akron, OH Board of Education for secondary pupils. Without home instruction, students would have lost a years' credit of class work since there is no other way of making up for days of absence caused by illness, accidents, etc.

My husband, Hiram Eley, and I are retired but very active in church and missionary work. We have 2 children; Carolyn and Franklin. We enjoy our 2 grandchildren, who live in Lincoln, NE.

Betty (Peek) Harold, BS'45
Hopkinsville, KY

Just want you to know how much I enjoyed the alumni Homecoming this year. Thank you, Viola, for doing such a good job at keeping things going, including the SURVEY.

May (Hatanaka)
Kunihira, S'43-45
Loma Linda

We are grateful for Madison College and to have had the opportunity of attending it. Enclosed is our donation for the Madison College Alumni Assn. We appreciate, Viola, what you are doing to keep the alumni together. It must be frustrat-

ing without enough funds. I know how it is.

We are sorry to hear of "Miss Mable's" passing. Many of the Japanese students who were at Madison before and during the war years have passed away within the past 5 or 6 years, such as: Takashi Mitoma, M.D., S'43-44, Kataoka Seine, S'34, Mamie (Uchida) Ozaki, BS'45, James Miyake, S'40-43, and Victor Seino, S'39-42, just passed away in May.

Lois (McCury) Bull N'49
Yucaipa, CA

We sold our Arkansas property and moved to Yucaipa, CA. We like it here except the earthquakes. We had two major ones about a week after we arrived. We live near our 4 adult children and see them often.

Lucile (Burgess) Cline, N'49
Loma Linda, CA

It was wonderful seeing all of you at Homecoming. I keep thinking I'm having a beautiful dream and will wake up and I didn't make it this time to Homecoming, but I did, and enjoyed it all. I'll plan to come again and again.

Lucy (DePas) Zetko, N'49
Crestwood, KY

Just finished reading the SURVEY. We greatly enjoy thinking back every time we get an issue. Keep up the good work!

We are sorry to read about Bill Brandemihl's death.

We are sorry we could not attend Homecoming this year, but we are very busy trying to build up a Laundromat in Louisville, KY, so we can sell it.

We like hearing from folks, If any of our Madison friends come this way, our phone number is in the book, please call us.

Sue (Townsend)
Potts, Sec. Sci'51
Silver Spring, MD

So sorry to hear of the death of Mrs. Towery. God bless her for all of the years of service to the alumni assn.

We must carry on. Enclosed is my check to help the work to continue. I always look forward to the news in the SURVEY. Give Naomi Gowan my greetings!

Lorraine (Ehrhendt)
Everett, BS'51
Riddle, OR

Ed, S'49-52 is still practicing here at Riddle, and I work for him. We also help in community projects and I volunteer and run the high school concessions. I like to work with the teenagers.

Our son, Lawrence, is working the nickel mine here at Riddle. Our daughter, Roslein, is in her 3rd year residency in psychiatry at the University of Kansas Medical School.

We enjoy getting the Madison SURVEY and the news of the alumni.

Jane (Jansen)
Douthet BSN'56
Loma Linda, CA

Enclosed is my check. I do hope the SURVEY can continue. I always enjoy reading it.

We will miss "Miss Mable." She was so faithful. A very special person. What an example!

Imogene (Meeks)
Ward, N'56 BS'57
Odessa, FL

Enclosed is my check for \$100 to help defray costs for the SURVEY. I will send \$100 next June and the June there after. I will always be grateful to Madison for the opportunity of learning, which otherwise would have been impossible for me.

(The SURVEY appreciates your donation and the pledge of your donation each year. We ask that everyone who can, to match the pledge Imogene has made. We thank everyone who has given back to Madison some of what she gave to you. Many people would not have received an education had it not been for Madison College. Thank you for your support!)

Vero E. (Wright)
Stacks, BS'58
Decatur, AL

This is just a note to say thank you for the Madison SURVEY. I enjoy it so much. I like to hear all about what goes on at Madison. I spent 4 years at Madison, and can truly say it was 4 years of my life that was well spent with good Christian people.

I lost my husband, James, in 1986. I have 3 children, 2 are married and one at home, who goes to college. I have one 3 year old granddaughter.

Faye (Goodwin)
McColpin, S'60-61
Collegedale, TN

Some memories I have of Madison are working with Myrtle Cox, RN. She was one of the most consecrated nurses concerning Sabbath work, I ever worked with.

James and Jenny Lee Vest were good folks to work with, also.

Imogene (Lemacks)
Shepard, N'59
Avon Park, FL

We are living in Avon Park, FL. My son and 2 girls live in the same town. My husband, Hugh, is working at Walker Memorial Medical Center.

Carol A. (Cruzen)
Schaber, S' 60-61
Dillingham, Alaska
Greetings from Alaska!

I certainly wish I could have attended Homecoming in June, but we live too far away from Madison Campus. Since we just started working at the Kanakamak Hospital in Sept.'91, June would have been too soon to take off for long.

My mother, Deloris Cruzen and Aunt Lucille Cline, N'49 and my sister Judy Tomerlin were there.

Enclosed is my check to help keep the SURVEY going.

I certainly hope that it continues coming for many years to come. I'll miss Mrs. Towery's special way of writing up the paper. She really was a dedicated woman.

As of October 1 it has already

snowed 3 times here in Dillingham. This is ahead of last year when the first snow was Oct. 2.

I am working full time transcribing in the Medical Records dept of the hospital here. My husband, Ralph, is supervisor of the Ultra Sound and X-ray dept.

Our youngest son Wayne returned from Seoul, Korea where he was a student missionary. He will return to Union College in January.

Correne (Bunch) Belz, N'62
Grand Prairie, TX

Was saddened to hear of the death of "Miss Mable." She did so much to keep the alumni together. It would be a sad thing to see it cease operating now, and I'm sure others feel the same. I look forward to receiving the SURVEY as it is my best contact with Madison Alumni. I just wish more of my classmates would take a few minutes to write in news concerning them and their families.

I'm still living here in Grand Prairie, TX, and am the Assistant head nurse of the nursing at HCA Arlington Medical Center.

My oldest son, Daryl is construction supt. for J.G. Moore & Co. Tamala is married and works for Allstate Data Center. Randy is in college at the University of Texas at Arlington, majoring in Biology and will enter Physical Therapy next year.

A big Texas welcome is extended to everyone coming Texas way.

My check to help keep the alumni operating, is enclosed.

Toni Leake, MR'64
Richmond, VA

I was so saddened to hear that Mable Towery had passed away. She was such a wonderful organizer as well as a friend, and she will be missed greatly.

I am enclosing a check to help with the alumni association, and I hope to be able to send more next month.

Please keep me posted on how things are going. I would like to help in any way I can. God bless you in your endeavors.

Steve Marlow, N'64
Dunlap, TN

My wife Dena, and I are living in Dunlap, TN. I am working at the local hospital as surgery supervisor. I was the night supervisor. I taught Health and Biology at Laurelbrook Academy in 1991, and helped to cover some of the Laurelbrook Sanitarium R.N. needs. Dena was school kitchen supervisor 3 days a week.

Our oldest daughter, Julie, graduated from Laurelbrook last May and Jana is a Senior, this year. Last year she went to Weimar Academy in California. We commuted back and forth from Tennessee to California, which gave the illusion of living in the car.

I appreciate that my classes at Madison College encouraged me to enjoy many things. Marion Simmons and Miss Elquist sparked my health screening activities.

Even though Madison has taken a different form, it continues to make a difference through the years in our lives.

John Crowder, M.D., S'61-64
Laguna Beach, CA

Enclosed is a check as a memorial gift to Mable Towery. I admired her devotion to the cause of the alumni association and am sorry to learn that she has passed away.

As to the future of the Madison College Alumni Assn., I would recommend that it not be maintained as a separate organization but that it be merged with some other, such as the academy alumni assn., if there is one. Without a new supply of active members the association cannot live in perpetuity.

We were at Madison in May for the Madison Academy graduation, as my niece Connie Baker, was in the graduating class. Her sister Pam was married in August and we returned for her wedding, so we did not make it for Homecoming. We appreciate your hard work, Viola, in carrying on the activities of the Madison College Alumni Assn.

**Marjorie (Perry)
Illingworth, M.R., '65
St. Petersburg, FL**

Sorry to hear of "Miss Mable's" passing, also that money hasn't been coming in as necessary to keep the alumni office going. I think I was sending in \$10 a month.

I enjoy the SURVEY very much as I often learn about people I would otherwise never know about through present status.

LETTERS

**Dr. Eunice M. Christensen
Thomasville, GA 31799**

Here is my renewal check for the SURVEY.

I never attended Madison College, but I've always, from childhood, been interested in it and through the years have subscribed to the SURVEY.

Sorry to read "Miss Mable" is gone.

**Juanita (Standish) Gosse
Loma Linda, CA**

I was born at Madison in 1923 and my family left there in 1937.

I wish I could have been there for Homecoming this year, but it was out of the question-- my husband was having some medical problems. The idea of having a reunion of ones who were born at Madison was a great one, and I am sorry I missed it.

I remember the Jacobsen family very well, and when they lived down the road off boys row. We used to pick watercress in the little water hole along that road.

I remember one time my sister and I had been in some sort of school program where we wore crepe paper costumes. We were walking home (still in those costumes) when it began to rain. We had a mile and a half to walk so you can imagine what we looked like by the time we got home--we were all colors of the rainbow.

I remember Richard Walker chasing us kids off the grass, and the cherry tree beside the walkway to the Demonstration Building--cherries were so delicious.

I remember racing on roller skates down that walkway, and how Alfred, BS'55, and Harry Webber, S'41-42 would jump the steps on their skates that were beside the road that crossed there. I was racing along that walkway one time and didn't slow down enough as I approached the front doors on the Elementary side of the Demonstration Bldg., and my hand went through one of the panes of glass as I stopped myself against the front door. I have the scars on my left fingers to this day.

I remember old Uncle Charlie, as everyone called him, a wonderful white haired black man who worked on the grounds of the campus. He could tell wonderful stories that kept us spell bound.

I remember the church services held in the chapel at the Assembly Hall. A tall thin man who always sat in the front row and slept through most of the service. It was in those church services that I would hear "amens" said at intervals during the main prayer. I imagined in my mind that various people were guessing as to when the person was going to end the prayer. I almost ventured a guess a few times!

50th Wedding Anniversary

**Glen and Dorothy
(Wayne) Bowes**

Late greetings to you in Ninety-two. We're later than usual 'tis surely true--But we still want to wish you cheer, on this our 'Golden Anniversary Year.'

Valentines is our day to celebrate, Because in 'Forty-Two we sealed our fate! So in this year of 'Ninety-Two,'Tis Fifty Years since we said "I do." We renewed our vows at the Pomona Church. For an officiate we had no search--As our son, Richard, the Rite performed, Making our Ceremony out of the 'Norm.'

We again thank the Lord for He has blessed, And made these Fifty Years the best!

But as to our Memories this year past--Once again we found things do not last; As Ninety-one showed us change is sure, When Walla Walla proved the lure--And Rick's family answered the call, Moving 'en-masse'--animals and all. Washington State seems far away, But we still can fly the 'United Way'!

Last spring we again tripped to Tennessee. College Memories for Glenn and me. A fall visit to Iowa in September, With Glenn's home town again remembered.

In November a last visit to Ukiah's Flora. Bidding farewell to Rick's home on Dora! We finished the old year again in flight, Christmas to New Years' seemed just right, As we celebrated with Ron and Sue Also Rodney, Sharla and doggies too!

People may move and their places change, But we're still here "Home on the Range." Forty years on East San Jose. Makes us believe we're here to stay.

So again we thank the Lord--He has blessed. And to you and yours we wish the best.

50th Wedding Anniversary

Helen (Hite) & Ulma Doyle

Ulma, and I had our 50th wedding anniversary in June. We had a little dinner party at Becky's (our oldest daughter), for all the family and about 20 plus close friends.

HAPPENINGS

*The alumni wish to thank Mavis Sutherland for giving to the Heritage House a copy of "The Sutherlands of Scotland and Dunrobin Castle Galspie, Sutherlandshire, Scotland." This is a history of the Sutherlands from 1752 through 1992. It was compiled by Robert Sutherland of Moline, IL.

*Thanks to Bill & Evelyn Hoover for donating to the Heritage House a "Singing Youth" hymnal, which is

inscribed as the Property of Williams Hall.

*Joe Sprague Wong, N'50, sent a memorial gift in memory of Ralph Cline, BSN'50.

*Marjorie (Perry) Illingworth, Toni Leake, and Dr. John Crowder sent memorial gifts in memory of Mable Towery.

*Phyllis Whalley, MR'56 visited the Heritage House. She said that this was her first return visit since graduation, and that it was hard to find things, but she could spot the sites where 3 buildings had been.

*Dr. Gene Thomas, husband of Gerry (Bond) Thomas, S'37-42 has retired from his practice.

*Velma (Stewart) Mixon, N'52, was married to Robert Leslie Smith July 1992, and they are living in Elijah, GA. Velma is Director of nurses at the North Georgia Medical Center.

Thank you Shirley Drury for this update.

*Benson Kibochi Ng'amig'a, PO Box 812, Kerichd, Kenya, East Africa, asks that you send any of the E.G. White books and King James version of the Bible that you can spare. Benson is an evangelist in Kenya, Africa.

CORRECTION

Verle Brown wanted to add to the information she gave at Homecoming. She graduated in 1944, and her 2nd son David is a timber faller instead of hauls timber. Her 3rd son Marvin is an auto mechanic by trade. And, Verle and Harlan have 11 grandchildren.

IN MEMORIUM

to
Mable Towery

"Miss Mable" enjoyed so very much having some of the letters which were written to her, published in the SURVEY. As you may have noticed, in this SURVEY, we have printed the kind words people wrote about "Miss Mable," after her death.

Steve Marlow wrote a letter to

Mrs. Towery, which came just about the time of her passing, and she never saw it.

So in honor of "Miss Mable," for the last time, we print a letter she so much would like to have had printed in the SURVEY.

We appreciate the many years which "Miss Mable" gave, to keep the alumni together, and the SURVEY going out.

Dear Mrs. Towery,

Congratulations on 30 years with Madison College. You have been a great inspiration to many people through the years. Your pen has been the life of Madison ideals. Thank you for your toil, sweat, and tears.

It is easy for a writer not to get the credit that is deserved. I know we are all looking forward to seeing the trophy which Jesus will present to you for the years of service to His cause and for helping to keep the light of Madison glowing. S. Marlow

NEWS NOTE

John E. Crowder, M.D., former student at Madison College, was co-author of a poster/abstract entitled, "6-Week Comparison of Venlafaxine, Trazodone, and Placebo in Major Depression." It was presented at the annual meeting of the American College of Neuropharmacology in San Juan, Puerto Rico, in December 1991. He was also co-author of a paper, "Comparison of Estazolam and Placebo in the Outpatient Treatment of Insomnia Associated with Major Depression," which was published in Current Therapeutic Research, vol. 49 no. 5, May 1991.

For further information, contact: John E. Crowder, M.D., 560 Diamond St., Laguna Beach, CA 92651. PH: (714) 851-2437.

John continues to recover from liver transplant surgery.

OBITUARIES

LAWRENCE MATTHEW CANTRELL

Lawrence Cantrell was born Jan. 9, 1906 and passed away Oct. 31, 1992.

Lawrence ran the dairy on the Madison farm for many years.

LETA M. (BURGESS) BRANDEMHL

Leta Brandemhl was born Jan 21, 1921 at Luck, WI and passed away Aug. 18, 1992 at the Chippewa Manor Nursing Home. She lived near by in Laffayette township, and was a member of Chippewa Falls SDA church.

Leta attended Madison College and graduated in 1954 from the nursing program.

Her husband William R. Brandemhl preceded her in death, February 1992. He also attended Madison College and had his RN degree in nursing.

Leta and Bill retired from Hinsdale Hospital in 1985. They had worked there for 20 years.

They had 2 children, William C. who lives in Hinsdale, and Lori England, who lives in Centerindle, OH.

Leta had 3 sisters: Diavola Lemon, Deloris Cruzen, and Lucille Cline; two brothers; Lyle C. Burgess, and Dale Burgess.

HELEN (KRUM) BROWN

The SURVEY has received word from Naomi Wickersham that her very dear sister, Helen Brown, died July 17, 1991.

HAZEL GORE

Hazel Gore wife of Horace Gore passed away Nov. 2, 1992.

Hazel was born in Nevada, IA, the daughter of Irva, S'20, and Christina (Jensen), N'26 Sargent. Some may remember Hazel as a little girl on the Madison campus, with her parents Mr. & Mrs. Sargent.

NIS HANSEN

Nis Hansen, Jr. was born Oct. 9, 1906, at Armona, CA. He was the only son of his mother, Minnie (Hough) Hansen, and the youngest son of his father, Nis Hansen.

While visiting with his sister, Katherine Magan and her husband, Wellesley Magan, M.D. in their home in Covina CA, Nis and Pearl were introduced to Dr. & Mrs. E.A. Sutherland, who were also visitors of the Magans. At that time Madison College was in need of a science and mathematics teacher and they made a stirring appeal for Nis to come to Madison and teach those 2 subjects. Nis and Pearl joined the staff in 1929 and remained there for 17 years working hard to improve and expand the science dept. Pearl taught typing, shorthand and accounting.

Nis enjoyed his teaching years at Madison College. He was not only a teacher but a true friend to his students and Christ was always upheld as the true Scientist-Creator of the universe.

In 1946 Nis joined the Washington Missionary College staff, and taught Physics there for 10 years.

In 1956 Nis went into aerospace research and development as a Physicist. His first employment was with Parson's in Frederick, MD. At that time this corporation was engaged in germ warfare research.

In order to be close to his relatives and family on the West coast, Nis accepted a Senior Engineering position with Northrop Aircraft Corporation in Hawthorne, CA. At Northrop he was assigned to Classified Research Programs, which included missiles such as the snark and intelligence reconnaissance. His last 10 years in Aerospace employment was at the Culver City site of Hughes Aircraft Company where he con-

tinued to work on Classified Programs until his retirement in 1966.

Most of his retirement was spent with Pearl in their home on a golf course in Borrego Springs, CA.

DOROTHY MAE (FOOTE)
DAVIDSON

Dorothy Davidson was born to Charles and Delva (Phipps) Foote in Parkersburg, WV.

She attended academy at Battle Creek, MI, and college at Emmanuel Missionary College.

She was married to Ralph Davidson, in 1933. After marriage she and Ralph lived at Madison where Ralph graduated with a B.S. degree in 1934.

Dorothy was an avid bird-watcher. James Tucker, a noted bird authority in the U.S., who has edited magazines and written books about birds, was taken on his first bird trip by Dorothy.

She was a vegetarian and developed many recipes for the vegetarian diet, training her 4 children in the ways of health. Dorothy was an excellent seamstress, making most of the clothing for her children, and in later years, suits and slacks for Ralph.

Dorothy had what would be called a perpetual smile for everyone she met. She passed away Sept. 23, 1992

Survivors include: Husband Ralph, Four daughters; Virginia, Anne, June, and Joan; 13 grandchildren, 15 great-grand children; One sister,

Ellen Pitts, of Murfreesboro, TN.

Dorothy was preceded in death by her parents, her older sister, Ruth, her two brothers, Harvey and Francis, one grandchild, and one great-grandchild.

Dr. Chu

The SURVEY has received word that Dr. Chu has passed away.

Elder N.C. Wilson

Elder Nathaniel Wilson passed away Dec. 1, 1992, at the age of 96. During his life he was president of 4 world divisions; Australia-Asian, Africian, South Asian, and North American division. He also taught at Madison College.
