# Association of Seventh-day Adventist Librarians Archives Collection 199

## Scope and Content:

This is the official archives of the Association of Seventh-day Adventist Librarians (ASDAL). This collection contains materials and documents related to the organization, the function, and the annual conferences.

## Arrangement:

The archives is an on-going one, and thus more records will be added in the future. The boxes of ASDAL archival records are arranged chronologically, and are organized in the following order for each annual period of time.

- Legal
- Membership
- Officers
- Finances
- Committees
- Publications
- Annual Meeting

At the end of the collection there are tapes arranged chronologically, as well.

## Provenance

The records in this archives have come from officers of the Association as well as some who were involved with it over the years. According to the organizations Bylaws, the Secretary is responsible for sending records to the archives. Beyond that each officer should be aware of their role in preserving the records of the organization.

## Use

All users of this collection are required to complete the "Application to Use Unpublished Records," and to observe the regulation specified in the "Patron Agreement" and "Researcher's Code of Conduct." Most records in this collection are open and available for research. Certain records may be closed due to confidential or personal information. Center personnel will evaluate as needed. Citation for this collection:
