Paul W Puckett (Lunar Calendar) Collection (Collection 330)

Biographical

Paul W. Puckett was born on June 18, 1942 in the home of Maxine Rose Puckett in Avery County, North Carolina. He completed his studies in the Avery County Schools and spent 30 years working at Fiber Industries. He married Sally Arquette. They had three sons—Denny, Scotty, Ricky, and a daughter, Cricket. At the time of Paul's death on November 22, 2011, he had ten grandchildren and one great-grandchild.

Scope

Paul Puckett collection comprises of the papers, articles, essays, notes and correspondences that relate to the lunar calendar and the Seventh-day Adventist Church. These articles were written from the biblical, historical and theological perspectives by Adventist and Non-Adventist authors.

Arrangement

This collection of materials are arranged in alphabetical order by topics. There are some papers or articles which are closely related to others filed under a different topic. For instance, the papers and articles that come under "Beginning the year" are closely related or overlapped with papers and articles in "Biblical new moon." Another example are articles in "Hebrew Terms and Idioms" that are closely related to "Hebrew Calendar." They are kept in their initial order though they are overlapped in some point. They are kept in this order as Paul Puckett may have a reason why he arranged them in that order.

Extent

3 large boxes and 1 small box [4.16 linear feet]

Provenance

Heather McBride, a family member of Paul Puckett, donated this collection to the Center for Adventist Research in June 2014.

Use

All users of this collection will complete the *Application to Use Unpublished Records*, and observe the regulation specified in the *Patron's Agreement* and *Researcher's Code of Conduct*. All records in this collection are open and available for research. Suggested citation for this collection:
